The Wlpan course is aimed at complete beginners, concentrating on conversational Welsh and using the language in everyday situations.

The course fee includes the course file and a listening comprehension CD. Revision CDs accompanying the course will also be available for purchase at the classes, if you would like to use them for further practice.

The classes will be held at the Welsh for Adults Centre, Dean Street.

A follow-up course will be offered from September at the same time and venue.

If you already know some Welsh, you could join one of the courses already running in the area. Please contact Sharon Roberts, the local Tutor-Organiser, for guidance about the most appropriate course for you.
