

NEW SERIES FOR 2011-12

People and Environment Seminar

Human populations interact with their physical environments, and these interactions have a history. Grasping the fruits of inter-disciplinary dialogue, the *People and Environment* seminar challenges us to reflect upon and integrate the work of archaeologists, environmental scientists and historians. Seminars shall set individual studies in the human and natural sciences alongside each other, and thus seek to foster fresh perspectives, methodological innovation and new ideas surrounding study of human-environmental interactions and the human past. Each 30-minute presentation shall be both accessible and specialist, and all are warmly welcome from within and beyond the University.

FRIDAYS 4:00PM

Tea & Coffee from 3:30PM

ROOM G1 (Ground Floor)

Main Arts building, Prifysgol Bangor University

| 7 Oct |

ENVIRONMENTAL IMPACTS

Prof Tony Brown

(Geography and Environment, Southampton)

‘Meteorological events and Neolithic monumentalism’

Prof James Scourse
