You don't have to be in Bangor to study with us. We have teaching centres in Wrexham and Mold and offer classes in communities throughout north Wales. It is our aim to bring education closer to your front door.

We really do have something for everyone - whether you want to learn Spanish or Italian for holidaying; improve your IT knowledge, or brush up and expand your Art skills. Why not put your credits towards a Certificate, Diploma, Degree or Postgraduate qualification? See page 26 to see how our qualifications work.

Part-time study may not cost as much as you think. Many of our students pay no or low fees. For more financial information see page 27. We understand the pressures of studying part-time whilst working and having a family. Our dedicated staff in Lifelong Learning and throughout the University are here to support and encourage you on your learning journey.

The University has an impressive range of learning resources. You will have access to them all - libraries, computer labs, Careers Service, Maes Glas Sports Centre, the Students' Union and Student Services. What more could you want!

Graddau Degrees

Enillwch BA neu FdA drwy astudio'n rhan-amser!

Mae myfyriwr ar y radd rhan amser yn gwneud yr un faint o waith â myfyriwr llawn amser, ond dros gyfnod hirach o amser. Byddwch fel arfer yn dilyn 3 modiwl bob semester, ond mae'n bosibl gwneud ychydig mwy neu ychydig llai o fodiwlau ar y tro. Mae'r rhan fwyaf o fyfyrwyr yn cwblhau gradd mewn 5 neu 6 blwyddedd. Mae'n bosibl gweithio'n fwy araf a chymryd hyd at 10 mlynedd i wneud y radd.

Nid oes raid i chi fod ag unrhyw gymwysterau arbennig. Mae profiad proffesiynol a sgiliau a ddatblygwyd yn y gwaith a gartref yn cael eu hystyried wrth benderfynu a fyddwn yn cynnig lle i chi. Fel rheol byddem yn disgwyl cynnig lle i unrhyw un y teimlwn y byddai'n elwa o astudio Gradd.

Gain a BA or FdA through part-time study!

Part-time degrees have a modular structure, which means that you can work at your own pace. Modules are usually 10 or 20 credits in length, and are generally studied over one semester. Most students can expect to complete a Degree in 5 or 6 years. It is possible to work more slowly, taking up to 10 years to complete a Degree.

You do not need any particular qualifications. Professional experience and skills developed at work or in the home will be taken into account when deciding whether to offer you a place. In general we would expect to offer a place to anyone whom we feel would benefit from studying a Degree.

LEARNING NETWORKS FOR COMMUNITY DEVELOPMENT, ENTERPRISE AND REGENERATION

All communities face increasing pressure to develop and maintain a host of activities, services and estate management these days. It can place great pressure on the community and its people, especially if the skills and knowledge required are not immediately available to them.

The Community Development Unit can develop and deliver specific learning opportunities to answer your community's needs. The provision will be planned with each community and delivery can be daytime, evenings and/or weekends, it can be short and intense or long and easy. Delivery will be to YOUR community group/s, YOU will help develop the relevant learning content, learning when it is convenient to YOU!

A range of expertise exists within the Community Development Unit and can be called upon to fine tune the content of all learning networks. The learning opportunities are accredited so you can gain a qualification as you answer your community's needs.

The focus of each learning network may well differ according to each community's need; one may wish to focus on developing its community's economic activity, another may have those skills but need volunteer management skills, community estate management, ICT skills and so on.

The learning packages can be bundled into 30 Higher Education credit units and with 4 of those you will have a Higher Education Certificate in Community Development; bundle 8 units together and you have a Foundation Degree in Community Development.

We can also arrange study visits, where you visit other communities, either locally or across Wales, the UK or Ireland, to see how they have approached similar issues. A little distance and difference can be a great help with ideas, approaches and solutions.

Call us if you need to discuss these opportunities further...we'll come to you!

Literary Modernism

YHE-2255

Dr Kathy Hopewell

Once a week for 6 weeks

Starts: Mon 10.03.08 18.00-21.00

Bangor: SoLL, Dean St

Level 2 10 Credits Fee £90/£45/£0

Literary Modernism has been defined as a collection of texts and also as a particular way of understanding and representing human experience. Therefore, by studying individual texts by D.H. Lawrence, Virginia Woolf, T.S. Eliot and others, we will examine the nature of modernism and the experimental literary methods associated with it. The module can be studied in conjunction with "Literature in Transition". As this is a level 2 module, please ask for further advice when registering.

Writing Short Stories

Dr Kathy Hopewell & John Sam Jones

2 day schools and online.

Bangor: SoLL, Dean St

Level 2/3 10 Credits Fee £90/£45/£0

The short story is one of the most popular forms for beginner writers, but its compression is often a challenge for the experienced. This course will set the practice of writing in the context of the development of the modern short story from early antecedents in the fable and folk tale up to the present. It will consider the ways in which this form might be ideally placed to respond both to the social and cultural conditions of the 21st century and to new media opportunities. Students will write their own stories and learn to view their own and others' work within a constructive critical framework. The course is taught partly through two summer day schools and partly online.

Through creative and critical approaches, this advanced module examines both the problems and the possibilities presented by the transposition of ideas or themes from one genre, language or art-form to another. Working with existing material from various sources allows for a concentration on developing increased awareness of style as a writer. By focusing primarily on poetry in translation from Wales and other European countries, it offers an opportunity to explore a wide range of cultural influences; knowledge of languages other than English is not necessary for full participation in the course.

Many of the Sector Skills Councils in the UK are placing considerable importance on Continuing Professional Development (CPD). CPD can be generally defined as an on-going, planned learning and development process which enables workers to expand and fulfil their potential. It contributes to work-based and personal development; it includes any activity that increases knowledge, experience and understanding and improves performance and contributes to Lifelong Learning.

We are delighted to be in partnership with CAIS, the Drug and Alcohol counselling Service in Wales, Coleg Llandrillo, Coleg Menai and Coleg Meirion-Dwyfor.

The following 3 modules are offered in partnership with CAIS and are delivered throughout the academic year. They can be taken alone or can form part of a Certificate in Higher Education in Personal and Professional Skills. The modules are considered important for anyone working in the areas of Substance Misuse and Drug and Alcohol Counselling, to equip them with knowledge and skills as evidence for continuing professional development which are key issues within the Care, Health and Justice Skills Sector.

Astudiaethau Cymdeithasol - Seicoleg ac Athroniaeth Social Studies - Psychology & Philosophy

Mae'r cyrsiau hyn yn archwilio rhai materion sylfaenol mewn gwyddorau cymdeithas ac athroniaeth. Maent wedi eu cynllunio yn y fath fodd fel y gall unrhyw un eu dilyn ac nid oes angen unrhyw wybodaeth flaenorol yn y pynciau dan sylw. Mae'r modiwlau athroniaeth yn trafod cwestiynau sy'n ganolog i'r traddodiad athronyddol Gorllewinol o ddyddiau Platon ymlaen, ac sy'n dal yn eithriadol bwysig heddiw. Mae Achos Marwolaeth ac Arbed Bywydau yn rhan o gyfres boblogaidd iawn o ddosbarthiadau athroniaeth sydd wedi cael eu cynnal ym Mangor am amryw o flynyddoedd, tra mai Rhagarweiniad i Athroniaeth yw'r cwrs athroniaeth cyntaf i ni ei gynnal yn Wrecsam ers peth amser.

Mae Seicoleg yn bwnc poblogaidd bob amser gyda myfyrwyr Dysgu Gydol Oes ac mae'r cyrsiau rydym yn eu cynnal ym Mangor ac yn Wrecsam yn cynnig rhagarweiniad eang ac amrywiol i'r pwnc. Fel y cyrsiau eraill, mae lechyd a Lles wedi ei wreiddio'n gadarn mewn disgyblaeth academiaidd ond mae hefyd yn codi llawer o gwestiynau ymarferol a fydd yn arwain at drafodaeth fywiog. Dysgir yr holl gyrsiau gan diwtoriaid profiadol a bydd yr awrgylch yn y sesiynau'n gyfeillgar ac anffurfiol.

These courses explore some fundamental issues in the social sciences and philosophy. They are designed to be accessible to all and require no previous knowledge of the subjects. The philosophy modules discuss questions that are central to the Western philosophical tradition from Plato onwards and which are still of enormous significance today. Causing Death and Saving Lives is part of a very popular series of philosophy classes that have run for several years in Bangor while Introduction to Philosophy is the first philosophy course which we have offered in Wrexham for some time.

Psychology is always a popular subject with students in Lifelong Learning and the courses that are running in Bangor and Wrexham both offer wide-ranging introductions to the subject. Health and Well Being is, like the other courses, firmly rooted in an academic discipline but also raises many practical questions which will lead to lively discussion. All the courses are taught by very experienced tutors and the atmosphere in the sessions will be friendly and informal.

The GWLAD project has been carried out by a development partnership working within the EQUAL thematic field of 'adaptability and lifelong learning'. The partnership has been developed by a diverse range of institutions and agencies: educational, community, statutory and voluntary. The main focus of our partnership's work has been the promotion of lifelong learning, particularly for those suffering discrimination and inequality in the labour market.

AIMS OF THE PROJECT

The main aim of the project was to provide lifelong learning and experiences relevant to gaining employment. We were particularly interested in the problems faced by those who live in rural areas, especially the socially excluded.

Innovation in Lifelong Learning

- Researching the experience of learners in rural areas and the INNOVATE programme; devised with the aim of dispelling fears and anxieties about entering Higher Education in a relaxed, informal, interactive setting.
- Using blended learning

The empowerment of socially excluded groups

- Informal learning partnerships
- Skills Training workshops for economic migrants
- Confidence raising course for SMUG (substance misuse users group)
- The learning communities network, including Cymry'r Ucheldir

Learning into employment

- Researching the experience of volunteers
- Informal learning for volunteers
- Developing motivational computerised interventions to substance abusers.

REAL

Ready for European Learning

We have shared experiences of good practice with other EQUAL projects in the Czech Republic, France and Belgium, looking particularly at ways of motivating learners, approaches to accrediting experiential learning, and the advantages and difficulties of e-learning. Our transnational work also included an exchange of staff with a project working in a rural area in the Czech Republic that had many similarities to North Wales.

How Our Qualifications Work

Higher Education Certificates

A module can be studied on its own, or you may decide to continue your studies and move on to complete a Higher Education Certificate. It is possible to choose your own programme of studies to achieve a Certificate in Open Studies or you may prefer to study towards a named Certificate, for example a Certificate in Local History, Certificate in IT & Community Enterprise, Certificate in Fine Art, Certificate in Personal, Professional Skills and a Certificate in Community Development.

Certificates are made up of 120 credits at Level 1, which is equivalent to the first year of a full time University degree. Named Certificates are made up of core and optional modules.

No prior qualifications are needed to register for a Certificate apart from the Certificate in Fine Art for which there are certain pre-requisites.

All part-time students are allowed to register for a maximum of 80 credits in one academic year and can gain a certificate in three semesters (about eighteen months). You can, however, build up your credits gradually and take up to five years to achieve a named Certificate. It may be worth bearing in mind that there are a number of new means-tested schemes for part-time students who are considering studying for at least 60 credits in one academic year. (See section on Course fees).

Higher Education Diplomas & Degrees

Once you've completed a HE Certificate you may decide to continue your studies at a higher level. Diploma courses are at Level 2 (equiv. to second year full time degree) and students will normally have successfully completed a certificate before embarking on the Diploma. As with the named Certificates, the Diploma and Degrees have a set structure, with core modules that you must complete and optional modules which you can choose from. After completing the diploma level, students can move on to degree level - Level 3.

Diplomas and Degrees can be obtained in the following subject areas:

- Foundation Degree Management of Care
- Foundation Degree in Early Childhood & Learning Support Studies
- Foundation Degree in Community Development
- Diploma and Degree in Social Studies
- Diploma and Degree in Literature with Creative Writing
- Diploma and Degree in Combined Studies
- Diploma and Degree in Fine Art

If you would like to apply for any of these programmes or discuss your options further, please fill contact us on 01248 382708.

Credit Transfer

Please note: if you gain a named Certificate, this can be counted as having achieved Level 1 in the Combined Studies degree. This means that you may start this programme at Level 2. If you wish to enter another degree programme, such as the Foundation Degree in Management of Care, or BA Degrees in Social Studies or Literature with Creative Writing or Community Development, you will be able to transfer some credits towards these, though the precise number will depend on the modules you have studied and will be subject to the approval of the Programme Board of Studies.
