

VISITING SCHOLAR PROGRAMME
Wales Institute of Cognitive Neuroscience/School of Psychology
Bangor University, Wales

The School of Psychology at Bangor University, Wales, is seeking applications for its Visiting Scholar programme. The programme is funded by a Welsh Government grant to establish the Wales Institute of Cognitive Neuroscience (WICN) among Bangor, Cardiff, and Swansea Schools of Psychology.

Purpose

The programme is intended to bring leading cognitive neuroscientists to Bangor for a short (1-2 month) sabbatical-like visit, to promote collaboration and the exchange of ideas not only with Bangor scientists but also with collaborators at Cardiff and Swansea.

Provision

The programme will pay travel and accommodation costs for the Visiting Scholar, as well as a modest stipend.

Requirements

Visiting scholars will be expected to contribute to WICN in a number of ways, including collaborative interactions with existing staff, contributing to the colloquium series, and running occasional workshops for staff and graduate students.

Applications

In the first instance, informal enquiries should be addressed to Prof Steven Tipper or Prof. Kimron Shapiro (s.tipper@bangor.ac.uk, k.shapiro@bangor.ac.uk). Interested applicants should send a CV and supporting letter to Donna Pierz-Fennell (d.pierz-fennell@bangor.ac.uk), WICN Manager, School of Psychology, Bangor University, Gwynedd, LL57 2AS, UK.

About Bangor School of Psychology

The School of Psychology at Bangor has an outstanding research programme (reflected in the RAE results of 2001 and 2008) and has excellent resources (e.g. 3T fMRI, TMS, EEG/ERP, eye-tracking, haptic simulators, motion capture). For more information about the School see: <http://www.psychology.bangor.ac.uk/>

About the surrounding area

Bangor is located on the coast at the foot of the Snowdonia mountains in North Wales, offering stunning scenery as well as a clean and peaceful environment. For more information see: <http://www.visitwales.com/>
