Introduction to the 2022 online competition

This form should be completed by parents/guardians once a student or students have been allocated places at a regional heat.

Please ensure that this form is completed, signed, scanned and submitted as an attachment with the application form by the school staff responsible for the application process.

The competition of 2022 will be online. All the following safe-guarding and child protection preparation is made with this in mind.

All sessions for the competition must be held on school premises, and the accompanying teacher must follow the school's safeguarding and child protection guidelines.

The accompanying teacher must be in the same room as the child while they access the online sessions.

The information contained in this Parental / Guardian Consent form will be kept confidential and shared with the CLEC UK staff and representatives of partner organisations only on a "need to know" basis. If you do not fully understand any of the following questions/statements, require further information or wish to discuss any of your answers, please contact the team organising the event immediately at: MSCompetition@clecuk.org

These questions are not designed to exclude your child. The intention is to ensure that you are fully aware of the arrangements for the programme, any special risks or concerns and that we are aware of any extra support that may need to be put in place for your child. The information you provide helps us ensure the safety and welfare of your child at all times.

This year the competition is going to be run as a series of events/meetings on Zoom. It will have two aspects and the school/teachers decide which student will compete in each:

1. Individual Language Ability
2. Group Video

In the individual ability competition, your child will join a Zoom meeting from school premises and be supervised by their teacher. They will share a one-hour session with 5 or 6 other children in the same category from other participating schools, who will be able to watch your child's competition as audience when they are not competing and vice versa. These sessions are organised, moderated, and monitored by the CLEC UK staff at all times, following organisational safeguarding frameworks. Your child's accompanying teacher and the competition judges are also present in the virtual room. These sessions will be recorded and photographed by the CLEC UK Office.

In the group video competition, the children will be present in the videos which they make, uploaded by the school on a safe platform where a private link can be shared with the CLEC UK team and the judges.

The Finals will be run as Zoom live events on a one-hour time slot basis where apart from the students competing in the hour and their accompanying teachers, the students' parents/guardians can decide who can be invited as guests to watch the finals together with

them, i.e. the students' siblings, classmates, other family members and close friends, etc. The finals will be recorded and photographed by the CLEC UK Office.

The Celebration ceremony will be run as Zoom live event as a whole where invited guests register and join as participants; these could be the CLEC UK staff, judges, teachers, external guests, parents, siblings, family members, students from other schools, etc. and are moderated by the CLEC UK staff. The Celebration ceremony will be recorded and photographed by the CLEC UK Office.

The winning group videos (including Q & A) and the winning individual competitions recorded are going to be broadcast live in this event. If you do not give consent for your child's video (for group competition including Q &A) or recording (for individual competition) to be shown at the Celebration ceremony, that video/recording will have to be excluded. So, please make sure that you are providing us with all relevant permissions, unless you do not wish to do so.

Relevant signatures must be collected by the responsible teacher and submitted at the time of application.
