

YSGOL GWYDDORAU GOFAL IECHYD SCHOOL OF HEALTHCARE SCIENCES

Diabetes Nursing (L6) Diabetes Management (L7)

The increasing incidence of people developing type 2 Diabetes and its associated complications, together with a continuation in the incidence of type 1 Diabetes, indicates a continuing need for health care workers to develop their knowledge and understanding of these conditions. This module has been developed to ensure that health care professionals working in the field of diabetes are educated and informed with the wealth of contemporary theoretical and practical knowledge relating to the management of the condition and its complications.
