

## Dysphagia Taster Session 21st June 2019

**Does your role involve working with adults or children who have eating, drinking or swallowing difficulties?**

**Do you want to know more about Dysphagia and how to reduce the risks of choking/aspiration.**

This taster session is suitable for professionals across all fields of practice (adult, children's, mental health, learning disability) from primary and secondary care. The session will provide:

- ◆ An overview of dysphagia.
- ◆ An introduction to the anatomy and physiology of swallowing; the normal and abnormal swallow; with the causes and consequences.
- ◆ Consideration of The Inter-Professional Dysphagia Framework and how this underpins the service.
- ◆ An exploration of our roles and responsibilities, capacity/consent and non-compliance.
- ◆ An opportunity to discuss scenarios regarding eating, drinking and swallowing within your work environment.

***Lauren McAlpine and Gail Pritchard the leads for this event, are Specialists in Dysphagia***
