

PRIFYSGOL
BANGOR
UNIVERSITY

Collaborative Provision Register

Version 28 – February 2023

Types of Collaboration

Articulation Agreement	An arrangement whereby students successfully completing an approved programme of study in a partner institution are guaranteed entry on to one of Bangor University's undergraduate programmes with advanced standing.
Franchise Agreement	An arrangement in which the University authorises an approved partner organisation to deliver one of the University's programmes. The programme must be delivered according to the University's regulations and procedures.
Validation	A process by which the University judges a module or programme developed and delivered by another organisation and approves it as being of an appropriate standard and quality to lead to an award of the University. The programme is delivered according to the rules and regulations of the partner, but these must be approved in advance by the University.
Dual award	An arrangement in which the University and one or more other bodies with degree awarding powers together provide a single jointly delivered programme leading to separate awards and separate certification from each institution.
Joint award	An arrangement in which the University and another degree awarding body together provide a programme leading to a single award made jointly by both participants. A single degree certificate bearing the names of both institutions and their competent authorities is issued on graduation.
Modular arrangements	Bangor University modules delivered in association with an outside organisation, whose staff make a significant contribution to the teaching and assessment of students. All contributions are moderated by Bangor University staff and University appointed External Examiners.
Joint Validation	Bangor University programme that has been developed in parallel to an identical programme in collaborative partners. The programme has been approved by each institution, often in a joint event. Students are subject to teaching, assessment and award by the single institution in which they are registered.
Embedded College	Embedded on-campus college for international students to start their studies at Bangor University. Delivers the first stages of the International Incorporated Bachelor's Degree and the International Incorporated Master's. It is run in partnership with Oxford International Education Group
Student Exchange	Student Exchange arrangements can either involve Bangor University students studying abroad for one or two semesters or International students studying at Bangor University for one or two semesters.
Professional Practice placements	Professional practice placement periods for students that enable them to develop and acquire the skills and competencies they are required to demonstrate as part of their award. Programmes are subject to external accreditation and regulation by professional bodies.
Doctoral Training Centres	Scientific research and training programmes for postgraduate students funded by UK research councils.
