

International Women's Day 2014

Women in Science: Bangor University's College of Natural Sciences

Showcasing the achievements of women in natural sciences at Bangor University

					
<p>Josil Murray PhD Student</p> <p>Researched social forestry by living with indigenous community in the Amazon of Peru. Worked for five years with WWF in Malaysia on tiger conservation. PhD researching peat forest, Malaysia</p>	<p>Dr Julia Jones Senior Lecturer</p> <p>Leader of £2million consortium which studies impacts of ecosystem services payments on poverty</p> <p>Supervises PhD students working in Madagascar, Bangladesh, Bolivia and Indonesia.</p>	<p>Dr Paula Roberts Lecturer</p> <p>Polar terrestrial scientist; experience of several extended field campaigns in Svalbard and Antarctica</p> <p>Co-Director of successful local community energy company.</p>	<p>Prof Morag McDonald Professor</p> <p>Leads the School of Environmental, Natural Resources and Geography</p> <p>Established a high-profile EU-funded doctoral training programme</p>	<p>Relena Rose Del Toro Ribbons PhD student</p> <p>Conducted fieldwork in Australian outback savannahs for a year.</p> <p>Master's research: dendroclimatology published in PeerJ</p>	<p>Madihah Jafar Sidik PhD Student</p> <p>Reconstructed 19th c. Forel-Ule ocean colour comparator scale.</p> <p>Pioneering the use of the Forel-Ule in SE Asia.</p> <p>Co-author of marine sciences textbook.</p>
					
<p>Dr Giulia Cambiè Research Officer</p> <p>Fisheries work: UK, Greece, Italy, Spain.</p> <p>PhD on mitigation measures to reduce bycatch of marine turtles in longline fisheries.</p> <p>Post-doc research on population dynamic of the European sea bass around Wales</p>	<p>Dr Anita Malhotra Senior Lecturer</p> <p>Won Thomas Henry Huxley Medal (awarded by the Zoological Society of London) for best Zoology thesis, UK.</p> <p>PhD research published in Nature</p> <p>Published 1st robust taxonomic revision of Asian pitvipers</p>	<p>Dr Sophie Williams Lecturer/Postdoc</p> <p>Teacher at Bangor and post-doc in a tropical botanic garden in China.</p> <p>Set up a new Plant Conservation MSc at Treborth Botanic Garden</p> <p>Percussionist and dancer for afrobeat band – Drymbago</p>	<p>Sarah Marburger PhD Student</p> <p>6 weeks studying mangrove fish communities, Indonesia.</p> <p>MRes studying river connectivity of Brown Trout in South Wales.</p> <p>PhD researching Corydoradinae Genome Evolution using Next Gen Sequencing</p>	<p>Dr Delphine Lallias Postdoc</p> <p>PhD in genetic and QTL mapping in marine bivalves</p> <p>Currently using high-throughput sequencing technologies to investigate diversity of microbial communities</p>	<p>Alice Evans PhD Student</p> <p>Lived in Bornean jungle for a year, published frog population data in Biological Conservation</p> <p>Led volunteer research in Honduran cloud forest</p> <p>PhD on impacts of FPAs using eDNA</p>
