EXTRAORDINARY

Be extraordinary at Bangor.
OPPORTUNITIES.

Since 1884

Enabling the extraordinary.
WELCOME TO BANGOR!

Thank you for your interest in our wonderful University! I’m sure you’re excited to be considering studying for a degree and choosing the right university is the first step.

Bangor is a special place and a community where you’ll be supported to explore and develop your talents and plan your future career.

At Bangor students are at the heart of all that we do, and we’ve invested in developing fantastic academic, sports and social facilities that make it an even more friendly and attractive place to study and live. You may be interested to know that in the most recent National Student Survey Bangor is highly ranked for student satisfaction.

Bangor has outstanding academic and teaching credentials and I’m very proud of our gold award in the national Teaching Excellence Framework. This means that our teaching is of the highest quality and is underpinned by world-leading and internationally excellent research that I think you’ll find fascinating. Almost all our research academics teach, ensuring that you will benefit directly from the knowledge created by our research.

Being a part of our Bangor University community will also enable you to gain valuable work experience and look beyond your course to engage with a wide range of extra-curricular and volunteering opportunities. Many of our students tell us that giving back to society through volunteering gives extra meaning to their experience here.

All this takes place in an area of outstanding natural beauty and contributes to making the Bangor experience totally unique.

I hope you’ll come and create your future here with us in Bangor!

Professor Iwan Davies
Vice-Chancellor

BANGOR.AC.UK
SINCE 1884
From all of us at the Students’ Union, we would like to welcome you to Bangor!

We are immensely proud of the student experience at the University that is undoubtedly unique.

We are Undeb Bangor, the home of student life. ‘Undeb’ means union in Welsh, and we call ourselves Undeb Bangor as we are very proud of our Welsh roots.

Your students’ union is for all Bangor students, led by elected student representatives who are passionate about enriching and enhancing your experience whilst studying here.

We also work to ensure your voice is heard and that the kind of activities that are needed are being developed.

I have every confidence that there is something for every student to get involved with.

Whether you want to join a club, society, volunteering project or become an academic course representative, students at Bangor are never short of extra-curricular opportunities, and membership is free of charge.

We look forward to helping you find a new hobby, meet like-minded individuals, improve your employability and make a difference. Croeso - welcome to Bangor!

Henry Williams

BANGOR.AC.UK/OPENDAY
There are many reasons to study at Bangor. Ranging from academic excellence, student satisfaction to a friendly atmosphere set in a stunning location, Bangor has something for everyone.

- Top 10 in the UK for Student Satisfaction (Complete University Guide 2021)
- 2nd for Clubs and Societies in the UK (WhatUni? Student Choice Awards, 2020)
- Top 10 in the UK for Teaching Satisfaction (Guardian University League Table 2020)
- Top 15 in the UK for Student Experience (The Times and Sunday Times Good University Guide 2020)
- Top 20 in the UK for Course Satisfaction (Guardian University League Table 2020)
- Gold Award for Teaching Excellence (TEF, 2017)
The University is also situated within one of the most vibrant bilingual areas in the UK and both English and Welsh can be seen and heard in all aspects of life.

The Pontio centre is a landmark building which links Bangor University and the community which surrounds it. In addition to providing a base for the Students' Union, Pontio houses a cinema, theatre, lecture theatres, and places to eat.

Academi, the official student club, is the place to go for night-time socialising. Bar Uno, on the Ffriddoedd student village and Barlow’s, on the St Mary’s student village are other popular venues for students.

“Bangor is so ethnically diverse which is really good because you meet people that you wouldn’t necessarily meet in other places. I wanted a change of pace from London and Bangor is a refreshing change from city life for me. I really enjoy it here.”

With over 10,000 students from all over the world, Bangor offers a multicultural, multilingual experience.
INSPIRING BANGOR - A PLACE TO LIVE AND LEARN

A WARM AND FRIENDLY ENVIRONMENT

Many of our students choose Bangor because of the small and friendly nature of the University and town.

The University offers a relaxed environment for students to socialise, learn and make friends for life.

The town and the pier
Most of our buildings and halls are a short walk from the city centre where you’ll find a variety of national chain stores and smaller local businesses. Bangor Pier is a short walk away where you can take some time away from your studies to relax and try the best scones in Wales!

Adventures between lectures
There’s no getting away from it – the location, the scenery and the surrounding area are amongst the reasons why many of our students choose to come here.

Snowdonia National Park
The many attractions of Snowdonia for sports enthusiasts are obvious. Even if you’re not the outward-bound type there’s still plenty to explore in the surrounding area. Visit historical towns such as Beaumaris, Conwy and Caernarfon (all with their own castles) or scenic villages like Beddgelert and Betws-y-Coed.

Beautiful beaches
The stunning beaches on the nearby island of Anglesey are popular spots for sunbathing, swimming and days out with friends.

One thing’s for sure, all this on your doorstep adds a different dimension to student life.
Sports facilities

The University’s main Sports Centre, Canolfan Brailsford, is situated in the heart of Ffriddoedd, the main student village.

Indoor sporting facilities include:
- a state-of-the-art two storey gym
- a 9-platform Olympic and functional training area
- aerobics and cycling studios
- multi-route climbing and bouldering wall
- The Dome – a tennis and netball facility
- armoury for fencing and indoor archery at the Normal site
- fitness room at St Mary’s student village

Outdoor facilities include:
- floodlit synthetic pitches for football, rugby and hockey
- natural grass pitches for American football, quidditch, lacrosse and ultimate frisbee
- outdoor pitches and athletics track at Treborth
- games area with facilities for football, basketball and outdoor games at St Mary’s student village.

We work in partnership with Snowdonia Watersports, an outdoor activity base on the shores of Llyn Padarn which provides a base for the University rowing programme and other water/mountain activities clubs. Other local facilities include a 25-metre swimming pool with high diving facilities in Bangor, the National Mountain Centre (Plas-y-Brenin), and Plas Menai, the Sport Wales National Outdoor Centre.

Library and Archive Services

- Our four libraries provide a range of attractive study environments including collaborative work areas, meeting rooms and silent study spaces.
- Electronic resources are accessible on and off campus 24/7.
- We house one of the largest university-based archives not only in Wales, but also the UK.
- Allied to the Archives is the Special Collections of rare printed books.

Subject-specialist resources

We have a range of other learning resources including:
- a multimedia Language Centre
- a £3.5M ocean-going research ship
- tropical marine, temperate marine and freshwater aquaria
- a natural history museum
- a £1.5M MRI scanner
- Treborth Botanic Garden on the edge of the Menai Strait – all divisions of the plant kingdom are represented across its 45 acres and it's also home to the native red squirrel population and a heron colony
- a farm with research programmes in crops, agroforestry and environmental sciences.
To help you settle into university life, meet new people and make Bangor feel like home, we organise a Welcome Week for new students. The week is packed full of activities to make sure you get orientated, settled and make friends. You’ll attend an official welcome to the University and your academic School. The Students’ Union will also organise various fun-filled activities throughout the week to make sure you won’t have time to get bored or miss home.

We also have a team of Peer Guides who are current Bangor students who volunteer to be on hand to help you find your feet quickly, both with your study and socially. They’re the best people to help you settle, after all, it isn’t that long since they were new students themselves, so they will know just how you feel.

“The Welcome Week Fair is an excellent way to find clubs you like and try new things to see what suits you. We were given a Peer Guide in Welcome Week and it was nice to have a student perspective on the course, nightlife and shops etc.”

Rachel Barrett, studying Psychology with Neuropsychology

We are really proud of our friendly and welcoming community of students and staff at Bangor as well as our supportive environment from the moment you engage with us.
EMMA COLLINS
FROM BEDFORDSHIRE, STUDYING PSYCHOLOGY

“I chose to study at Bangor University because as soon as I arrived, I felt welcomed. The atmosphere was much friendlier and relaxed than other universities. I immediately met amazing friends and engaging lecturers, while also being surrounded by beautiful scenery.”

EMMA COLLINS
FROM CAMBRIDGE, STUDYING LINGUISTICS

“As a place, it has been so welcoming. I made friends quickly and felt I’d really found somewhere I could belong. It’s big enough that there’s plenty to do, especially if you want to go out exploring your surroundings, but also small enough that it feels like a real community. It just has a really lovely, easy-going feel to it.”
FREEDOM TO GROW

EMPLOYABILITY, INTERNATIONAL YEAR, PLACEMENT YEAR

"I graduate from Bangor University very happy with the confidence in myself that it's not just a degree I've gained. I have worked on my self-development and Employability Services have helped me a lot in becoming the person I am today."

Fazeelat Hamid, Medical Sciences graduate

Employability

Our wide range of personal and career development programmes give you every opportunity to prepare for the future and get your career off to a flying start.

From the moment you arrive, the Employability Service will be there to advise you and provide practical information. They will even continue to support you for three years after graduation.

To help enhance your employability, the careers support and initiatives offered include:

• A year-round programme of individual guidance, workshops and employer talks
• A paid internship scheme within the university’s academic and service departments
• The Peer Guide Scheme – which will help you develop interpersonal and organisational skills that employers value
• Broaden your horizons by learning a new language at an evening class
• Volunteering projects run by the Students’ Union, ranging from environmental projects to sport and social projects
• B-Enterprising – a programme to develop your enterprise and entrepreneurship skills
• The Bangor Employability Award – gain recognition for your extra-curricular activities (e.g. volunteering, clubs and societies, part-time work, etc.)

www.bangor.ac.uk/careers

International Experience - Go Beyond Bangor

Depending on your course, you may be able to take an International Experience Year where you study or undertake a work placement or internship abroad during your degree.

There are a wide variety of destinations to choose from all over the world and studying/working abroad is a great opportunity to gain experience with specialists, see a different way of life and broaden your horizons. With international experience of this kind, you’ll really improve your career prospects.

www.bangor.ac.uk/studentexchange

“Why did I decide to study abroad? Well, I guess I have always known I wanted to see the world. This seemed like a great way to do it. I had the freedom to choose whatever I wanted to study… I chose units in Australian History, Geography and Architecture, Politics and Foreign Policy, Online Data Processing, Dance, Drama, Marine Biology and Health. I did heaps of extra things, like road trips down the Great Ocean Road, up the East Coast and through the Outback.

There are so many benefits. It will be the most incredible time of your life. You learn so much about the world and realise it is quite a small place. Go out there and experience it!”

Aimee Boyd, Psychology student who spent a year abroad at Deakin University in Melbourne Australia
“In my second year I did a study abroad year at University of Bergen, Norway, which was incredible. This experience has massively shaped me as an individual and has given me greater self-confidence, developed my cultural awareness and further fuelled my passion for travel and exploring new places. I was able to travel and discover the amazing landscape the country has to offer such as the mountains and fjords. I also did 3 placements over a 12-month period, two in the UK and one in Costa Rica. All 3 placements helped develop my skills and allowed me to grow in confidence and have a stronger work ethic.

Both studying abroad and doing a placement year was amazing and has massively shaped me as an individual. I have met some incredible like-minded people who I now consider friends for life and this made both experiences even more incredible and rewarding.”

Belinda Betts, from Hereford, studying Environmental Conservation with Placement Year

Placement Year

The Placement Year provides you with a fantastic opportunity to broaden your horizons and develop valuable skills and contacts through working with an organisation, relevant to your degree subject.

You’ll go on the Placement Year at the end of the second year and you would usually spend 10-12 months with one or more placement providers.

You will be expected to find and arrange a suitable placement to complement your degree and will be fully supported throughout by a dedicated member of staff in your academic School and the University’s Employability Services.

www.bangor.ac.uk/placementyear

“Bangor gave me a multitude of opportunities to improve my employability and personal development.”

Sowmiya Shivati, Physical Oceanography graduate
Research is at the heart of Bangor University and we are in the Top 40 in the UK for Research Quality*. This is important to our undergraduate student community as it means that they are surrounded by staff and students who are conducting world-leading research and therefore their teaching and learning is future relevant.

At the very heart of our research is the concept that our work impacts on the lives of people in Wales, the UK and globally. This has been our central ethos since the University first opened its doors in 1884. Bangor University was founded by the local community to “serve the needs of future generations”.

*£128M of external competitive research funding over 5 years* *(2013/14 to 2017/18)*

**(Excluding specialist institutions and single-submission universities) (Research Excellence Framework, 2014)**
COLLEGIATE BANGOR

DIVERSE. INTERDISCIPLINARY.

Our extraordinary University is composed of three Colleges, each with a fantastic suite of diverse subject areas and interdisciplinary options that allow students to learn and grow.

College of Arts, Humanities and Business
- Accounting, Banking and Finance
- Business Management and Marketing
- Creative Writing and Professional Writing
- Criminology and Criminal Justice
- Drama, Theatre and Performance
- Economics
- English Language
- English Literature
- Film, Media and Journalism
- History, Archaeology and Heritage
- Law
- Linguistics
- Modern Languages
- Music
- Philosophy and Religion
- Policing
- Politics
- Sociology and Social Policy
- Welsh and Celtic Studies

College of Environmental Science and Engineering
- Biology
- Computer Science
- Conservation
- Data Science
- Electronic Engineering
- Environmental Science
- Forestry
- Geography
- Geology
- Marine Biology
- Ocean Sciences
- Zoology

College of Human Sciences
- Childhood and Youth Studies
- Graduate Entry Medicine
- Health and Social Care
- Medical Sciences
- Midwifery
- Nursing
- Psychology
- Radiography
- Sport, Health and Exercise Sciences
- Product Design
- Teaching
BILINGUAL BANGOR

WELSH-LANGUAGE OPPORTUNITIES

Situated within one of the most vibrant bilingual areas in the UK, the Welsh language is a completely natural part of Bangor University and can be seen and heard in all aspects of work and life.

Bangor University offers the greatest number of courses through the medium of Welsh and we are recognised for the standard of our bilingual services and support for students.

It’s possible to study Welsh-medium modules on many of our courses and there’s also plenty of support to help you should you choose to do so.

There are many great reasons to choose to study through the medium of Welsh including:

- Improving your employability and widening your career options as you show future employers that you have a practical use of the Welsh language.

Even if you don't speak Welsh, we’re sure you’ll enjoy the experience of living and learning in a bilingual environment. If you wish, you too will have the opportunity to learn Welsh alongside your degree with our free Welsh language courses.

- The Coleg Cymraeg Cenedlaethol Scholarships for studying all or part of your course through the medium of Welsh. See www.colegcyrmraeg.ac.uk

- You may feel more comfortable continuing your studies in your first-language or language of education.
The Foundation Year programme provides an excellent introduction to studying a subject at university and will provide you with the knowledge, skills and confidence required to study at degree-level.

Foundation Year courses are ideal for those who may not have the required qualifications for the degree-level course or those looking to re-enter education.

During the Foundation Year, you will focus on developing your academic skills and subject-specific knowledge.

On successful completion of the Foundation Year, you will progress on to the first year of the relevant degree-level course.

There is also an option for international students whose school-leaving qualification is not equivalent to the British school-leaving qualification to take a ‘Year Zero’ at Bangor University International College (BUIC), on the Bangor campus, before progressing on to the degree-level course.

www.bangor.ac.uk/foundation
www.bangor.ac.uk/yearzero

“The Foundation year prepares you for the full degree and covers things like essay writing, lab skills and how to prepare for exams. It also bridges the A-level science subjects with the Medical Science topics. My Foundation year class was small, so lecturers were able to help us and we could do more activities as a class. I would recommend the Foundation year degree.”

Amanda Jayaweera, studying Medical Sciences

BIOLOGY AND BIOTECHNOLOGY

Be Extraordinary at Bangor
BIOLOGY WITH BIOTECHNOLOGY

BSc (Hons) / MBiol (Hons)

What is this course about?
Biology has had a significant impact on human life, as biotechnology allows us to harness the fermentative capabilities of microorganisms to produce food products such as bread, cheese, beer and wine. Biotechnology offers breakthrough products and technologies to combat disease, reduce our impact on the environment, provide cleaner energy, and produce safer, cleaner and more efficient industrial processes. This degree will empower you to address global issues in an innovative manner to heal, fuel and feed the world.

Why choose Bangor?
• Steve Backshall the TV presenter is now part of our teaching team.
• Our facilities include: a botanical garden; our own natural history museum containing a comprehensive collection of invertebrate and vertebrate material and extensive marine and freshwater aquaria; and the Robert Edwards Laboratory for teaching cell and molecular biology.
• Our location makes it an ideal place to study biology – the range of soil types, climate and topography provides numerous diverse habitats, all within easy reach for field-based studies.
• Steve Backshall the TV presenter is now part of our teaching team.

Indicative Topics
In the third year you’ll choose from a wide range of subject areas from environmental to medical biology. All three years offer fieldwork and laboratory work.

GEOGRAPHY AND THE ENVIRONMENT

Be Extraordinary at Bangor
APPLIED TERRESTRIAL AND MARINE ECOLOGY

What is this course about?
This degree will teach you how to apply ecological sciences to the real-world needs of sustainable management and natural resource conservation across terrestrial and marine ecosystems. Current thinking in environmental management recognises the need for holistic practices which acknowledge that land and aquatic environments are interlinked. On this course, you will study fundamental ecology and develop skills that allow you to assess the impact of policy decisions on management.

Why choose Bangor?
- Steve Backshall the TV presenter is now part of our teaching team.
- This course is the only one of its kind offered in the UK.
- Our location is ideal for fieldwork – we are just metres from the seashore, with the mountains of Snowdonia National Park providing a spectacular backdrop to the city.
- Close links with environmental bodies e.g. The Snowdonia Society, Natural Resources Wales and the British Trust for Ornithology.

Indicative Topics
- You will take conservation practice as a compulsory module, and also work with a supervisor to design and carry out a piece of original research.
- We offer a wide range of optional modules on topics including forest ecology, environmental policy, freshwater ecosystems, wildlife ecology and conservation, forest ecology, ornithology, primatology, human aspects of conservation.
- You will have the option of going on a week-long field course to Tenerife or a longer tropical field course to Africa.

Why choose Bangor?

• Steve Backshall the TV presenter is now part of our teaching team.
• This degree draws on our strengths in biological sciences, ocean sciences and chemistry.
• Our location makes this an ideal place to study environmental science as we have a natural laboratory on our doorstep.
• From the coast to the varied landscape of the Snowdonia National Park, with its long history of multiple land use, mining and quarrying.
• Many staff recognised by various awards for their enthusiasm and expertise in teaching.

Why choose Bangor?

• Steve Backshall the TV presenter is now part of our teaching team.
• Our location, between the Menai Strait and Snowdonia National Park, offers unrivalled opportunities for learning about ecology, conservation and the natural environment.
• We have close links with many of the local conservation organisations and organisations throughout the world where staff and students are currently working in Madagascar, Costa Rica, Indonesia, Bolivia, Kenya and Bangladesh.

Why choose Bangor?

• We are in an ideal location for study, close to ancient seminatural woodlands and other sites of conservation importance.
• We own 82 ha of woodland, many seminatural, which are used for teaching.
• We have local, national and international links with a variety of governmental agencies and NGOs who are actively working on conservation projects and issues.
• Free first year of student membership of the Institute of Chartered Foresters.

Why choose Bangor?

• Steve Backshall the TV presenter is now part of our teaching team.
• We have local, national and international links with a variety of governmental agencies and NGOs with researchers working in Madagascar, Costa Rica, Indonesia, Bolivia, Kenya and Bangladesh.

Why choose Bangor?

• We have been teaching forestry at Bangor for more than 110 years and were the first university to offer Forestry degrees.
• We have a comprehensive library collection in Bangor, a forestry experimental area nearby, and are within easy travelling distance of public and privately-owned forests.
• We own 82 ha of woodland, many seminatural.
• Opportunities to study abroad.
• We pay for student membership of the Institute of Chartered Foresters.

Why choose Bangor?

• Steve Backshall the TV presenter is now part of our teaching team.
• We have local, national and international links with a variety of governmental agencies and NGOs with researchers working in Madagascar, Costa Rica, Indonesia, Bolivia, Kenya and Bangladesh.

Environmental Science

BSc (Hons) / MEnvSci (Hons)

What is this course about?

Environmental Scientists are needed more than ever by industry, government, and society. This degree brings together a wide range of subjects to explore the most important environmental issues, such as climate change, pollution, renewable energy, and food security. You will cover biology, chemistry, earth science and land and water resource management. This combination of subjects, along with practical sessions and field trips, creates a degree that is both fascinating and rewarding.

Environmental Conservation

BSc (Hons)

What is this course about?

Understanding how to tackle environmental issues such as pollution, climate change and the unsustainable use of resources has become the important challenge of our century. This course gives a theoretical grounding in how ecological systems work and a practical understanding of the issues surrounding environmental conservation. You will learn key skills needed by conservation professionals for monitoring habitats and species and how these need to take into account social and economic factors.

Conservation with Forestry

BSc (Hons)

What is this course about?

Forests are the most biodiverse of all terrestrial ecosystems and contain the vast majority of the world’s species. This degree provides an understanding of this biodiversity, the ways in which it is influenced by people, and the role that forests can play in reducing the impacts of human activities, including climate change. You will study a range of topics including the principles of biological conservation, forest ecology and forest ecosystem function, and the management of forests to meet conservation objectives. There are opportunities to study abroad in the second year.

Forestry

BSc (Hons) / MFor (Hons)

What is this course about?

There has never been a more exciting time to enter Forestry as a profession. Our degrees will prepare you for the challenge of managing forests for the many benefits they provide, at a time of global environmental change. Forests, vital to the global ecosystem, cover 30% of the world’s land area. Forestry is concerned with the understanding and sustainable management of these forests for the benefit of society.

WOODLAND MANAGEMENT AND CONSERVATION
BSc (Hons)

What is this course about?
Woodlands are important for the benefits they provide and there is great interest in creating new woodlands in the UK and other countries around the world. This degree focuses on developing the knowledge and skills to manage woodlands to deliver improved biodiversity conservation, public well-being, and sustainable production of renewable materials. You will study woodland management in both a UK and International setting, in particular their role in adapting to and mitigating the effects of climate change.

Why choose Bangor?
- We have been teaching about woodlands for more than 110 years, we were the first University in the UK with a degree in this subject.
- Much of our education takes place in woodlands outdoors.
- We own 82 ha of woodland and visit a wide range of woodlands in Snowdonia.
- Weekly-long field courses in all three years.
- We have excellent links with woodland organisations in the UK and overseas, who play an important role in our degree programmes, and employ our graduates.

Indicative Topics
- Year 1: The structure and ecological function of woodland ecosystems and the basis of their past, current and future management.
- Year 2: Scientific and socio-economic principles of woodland management, how woodlands are measured and assessed, woodland health and the role of trees and woodlands in the wider countryside and sustainable land use.
- Year 3: Woodland management plan, and independent review on a woodland topic.

GEOGRAPHY
BSc (Hons) / BA (Hons) / MGeog (Hons)

What is this course about?
Geography bridges the gap across social and natural sciences, and we take an interdisciplinary approach. Our degrees allow you to explore the physical processes that shape the Earth, the social, cultural and economic processes that influence people and places, and the human environment relationships. The MGeog degree has the same Year 1 and 2 programmes, then you undertake a Year 3 MGeog Project. In Year 4 of the MGeog, you will focus on your own research, allowing you to specialise.

Why choose Bangor?
- Steve Backshall the TV presenter is now part of our teaching team.
- Half and full-day field trips taking advantage of our location.
- Strong links with organisations: Forestry Commission, Natural England, the Snowdonia National Park Authority, Natural Resources Wales, Centre for Ecology and Hydrology, Welsh Water, Environment Agency. Some contribute to teaching and provide placements opportunities.
- We have a Geographical Information Systems Suite.

Indicative Topics
- Field trips to Snowdona and SW England in Years 1 and 2 and southern Spain or Tenerife in Year 3.
- Year 2 will provide you with deeper subject knowledge, introduce you to specialist techniques and fieldwork skills, and develop your own research. You can convert onto the MGeog at the end of Year 2.
- In your final year you can select from a range of modules that allow you to specialise in areas that most interest you. You will conduct your own research (dissertation).

WILDLIFE CONSERVATION
BSc (Hons)

What is this course about?
This course will give you a detailed understanding of all aspects of conservation science, including principles of ecology, evolution, environmental management, and how to apply this to wildlife conservation. You will learn about the issues concerning the monitoring and management of wildlife for their intrinsic value and as a natural resource. You’ll be taught about applied ecology, ecosystem functions, ecosystem services, environmental policy and conservation science.

Why choose Bangor?
- Steve Backshall the TV presenter is now part of our teaching team.
- Field trips to Tenerife or Uganda.
- Our location, between the Menai Strait and Snowdonia National Park, offers unrivalled opportunities for learning about ecology, conservation and the natural environment outside the classroom.
- We have excellent links with conservation organisations throughout the world. Staff and students are currently working in Madagascar, Costa Rica, Colombia, Ghana, Uganda, Kenya and Bangladesh.

Indicative Topics
- This degree will develop intellectual and practical skills, as well as numeracy, communication and IT abilities, interpersonal, self-management skills and professionalism in a context specific to the conservation world.
- You will be trained for employment in a broad range of fields including wildlife conservation and other professions which require an ability to take a quantitative and/or multidisciplinary approach to problems.
ZOOLOGY

Be Extraordinary at Bangor
ZOOLOGY

ZOOLOGY WITH ANIMAL BEHAVIOUR
ZOOLOGY WITH ANIMAL MANAGEMENT
ZOOLOGY WITH CONSERVATION
ZOOLOGY WITH HERPETOLOGY
ZOOLOGY WITH MARINE ZOOLOGY
ZOOLOGY WITH ORNITHOLOGY
ZOOLOGY WITH PRIMATOLOGY

What is this course about?
Zoology is literally ‘all about animals’. You will receive a thorough grounding in general zoology, exploring the diversity of animal form and function, and the evolution and ecology of the major animal groups. Through a series of modules which offer an element of choice, you will study invertebrate and vertebrate zoology and consider applied aspects such as parasitology, and the interaction between animals and their environment. We offer international field trips and work experience in a research laboratory.

Why choose Bangor?
• Steve Backshall the TV presenter is now part of our teaching team.
• We have a natural history museum with a comprehensive collection of insects and vertebrate material, marine and freshwater aquaria, a herpetarium, small mammal facilities, and a suite of environmentally-controlled rooms.
• Our location is an ideal place to study zoology as we have an extensive range of local terrestrial and aquatic habitats for field trips, including the University botanic gardens at Treborth.

Indicative Topics
Topics of study include organismal diversity, ecology and evolution, vertebrate and invertebrate biology, animal behaviour, behavioural ecology, and herpetology, and there is the opportunity to gain additional experience of primatology, ornithology, and entomology in optional modules.

Year 3
Complete an independent research project. Local and overseas fieldwork.

The Masters in Zoology (MZool) is an extended undergraduate programme where you will graduate at the end of the fourth year, after a research project.

ZOOLOGY WITH ANIMAL BEHAVIOUR
BSc (Hons) / MZool (Hons)

What is this course about?
The desire to understand the behaviour of animals has led to the development of a separate branch of zoology called ethology. On this course you will study traditional zoology but with an emphasis on animal behaviour in which you will discover how animals interact with one another and their environments, specifically looking at the mechanisms, functions, development and evolution of behaviour.

Why choose Bangor?
• Steve Backshall the TV presenter is now part of our teaching team.
• We have a pigeon loft for bird cognition and physiology research at the Treborth Botanic Gardens, rodent and reptile facilities also include sheep and beehives at the University farm.
• We have a natural history museum with a comprehensive collection of insects and vertebrate material, and an extensive marine and freshwater aquaria.
• Strong links with zoological organisations and research facilities around the UK and abroad – allowing for international field trips and diverse student research projects.

Indicative Topics
Year 2
You will study behavioural ecology, exploring how behaviour evolves and what it is for, looking at how animals choose their mates, why animals cooperate, and how they communicate.

Year 3
You will study advances in behaviour, exploring animal cognition, animal personality and animal ethics and welfare.

The Master in Zoology (Animal Behaviour) is an extended undergraduate programme which allows you to graduate with a Master at the end of the fourth year.

Indicative Topics
These include:
- Animal management
- Advances in animal management
- Animal husbandry

Central to this degree are modules exploring research-informed approaches to animal management, including key concepts such as animal husbandry, animal health, nutrition, behaviour, training, facility management, commercial farming and zoo management. Many sessions will be applied, incorporating a range of examples from animal collections, aquaria and the commercial farming industry.

ZOOLOGY WITH ANIMAL MANAGEMENT*
BSc (Hons) / MZool (Hons)

What is this course about?
This degree will give you a comprehensive, scientific approach to animal management, through the synthesis of multidisciplinary and specialist modules. For anyone who wishes to pursue a career in the animal care industry, you will graduate from this research-led degree programme with relevant practical experience and enhanced employability.

Why choose Bangor?
• Steve Backshall the TV presenter is now part of our teaching team.

Indicative Topics
Year 2
You will study behavioural ecology, exploring how behaviour evolves and what it is for, looking at how animals choose their mates, why animals cooperate, and how they communicate.

Year 3
You will study advances in behaviour, exploring animal cognition, animal personality and animal ethics and welfare.

The Master in Zoology (Animal Behaviour) is an extended undergraduate programme which allows you to graduate with a Master at the end of the fourth year.

Indicative Topics
These include:
- Animal management
- Advances in animal management
- Animal husbandry

Central to this degree are modules exploring research-informed approaches to animal management, including key concepts such as animal husbandry, animal health, nutrition, behaviour, training, facility management, commercial farming and zoo management. ZOOLOGY WITH CONSERVATION
BSc (Hons) / MZool (Hons)

What is this course about?
This course provides traditional zoology (taxonomy, morphology, physiology and cell biology) with an emphasis upon animal ecology (biodiversity, ecology, behaviour and evolution). You will be given an understanding of the need for environmental conservation and the means by which conservation objectives can be achieved. This degree establishes links between the academic learning environment and external environmental and conservation organisations through project work and practical management plans.

Why choose Bangor?
• Steve Backshall the TV presenter is now part of our teaching team.

Indicative Topics
A range of international field trips are available in Year 2 covering a range of zoological and conservation-based topics.

The Zoology with Conservation MZool is an extended undergraduate programme which allows students to graduate either with BSc (Hons) at the end of the third year or with a Master at the end of the fourth year.

ZOOLOGY WITH HERPETOLOGY
BSc (Hons) / MZool (Hons)

What is this course about?
Reptiles and amphibians are increasingly appreciated as model organisms in many fields of zoology, and are the focus of growing conservation concern due to the decline of many species. We now require a new generation of trained professional scientists with specialised knowledge and skills relating to these animals. This degree combines traditional zoology with an emphasis on amphibian and reptile biology and diversity, and is delivered along with aspects of conservation management and practices.

Why choose Bangor?
• Steve Backshall the TV presenter is now part of our teaching team.

Indicative Topics
The Master in Zoology (Herpetology) is an extended undergraduate programme which allows students to graduate either with BSc (Hons) at the end of the third year or with a Master at the end of the fourth year.

Why choose Bangor?

- Steve Backshall the TV presenter is now part of our teaching team.
- Award winning teaching team.
- Our excellent teaching facilities include an extensive marine and freshwater aquaria with a suite of temperature controlled rooms and a natural history museum which has an exceptionally comprehensive collection of vertebrate material.
- Our coastal location, in close proximity to the Irish Sea and the Menai Strait, makes it an ideal place to study marine zoology – providing a range of habitat types for field courses and study sites for final-year projects.

Indicative Topics

- During Year 1, common modules are taken, but of particular interest to students on this degree is the study of organisational diversity. In Year 2, you will have the opportunity to study marine physiology and behaviour, and take field courses. In Year 3, you will study fish physiology. A dissertation, which can be laboratory, field or literature-based is a key component of Year 3.
- The Master in Zoology (Marine Zoology) is an extended undergraduate programme which allows students to graduate either with BSc (Hons) at the end of the third year or with a Master at the end of the fourth year.

Why choose Bangor?

- Steve Backshall the TV presenter is now part of our teaching team.
- Bangor is a UK centre of research excellence in ornithology, with a team of full-time staff specialising in avian evolution, behaviour, physiology and conservation, and many other staff who have ornithological interests.
- We benefit from expert input to this degree from the Wales office for the British Trust for Ornithology, which is located at Bangor University.
- We have our own natural history museum.
- We also have a research farm, botanical gardens, and a pigeon loft.

Indicative Topics

- You will be given broad zoological training that covers both pure and applied aspects of animal life and specialist ornithological knowledge and skills.
- You will have the opportunity to undertake a field trip with an ornithological focus at the beginning of Year 2.
- We offer specialist ornithology modules in Years 2 and 3, and a wide range of ornithological dissertation project opportunities.

Why choose Bangor?

- Steve Backshall the TV presenter is now part of our teaching team.
- Budding primatologists will be part of a School with an established and growing primatology research group, through which they can engage with ongoing research activities and interact with specialist staff.
- Our excellent teaching facilities include a zoology museum with a diverse collection of vertebrate and invertebrate specimens, including primates, a growing collection of non-human primates and early human fossil casts, marine and freshwater aquaria and a botanical garden close to the Menai Strait.

Indicative Topics

- These include:
  - Introduction to primatology
  - Advances to primatology
  - Human evolutionary biology
  - Primatology field course
- Final year dissertation project in primatology

The Master in Zoology is an extended undergraduate programme allowing you to graduate either with BSc (Hons) at the end of the third year or with a Master at the end of the fourth year. Sufficient standard must be achieved at the end of Year 2 for progression onto the Masters year following completion of Year 3.

PHYSICAL OCEANOGRAPHY
MARINE BIOLOGY
MARINE BIOLOGY AND OCEANOGRAPHY
MARINE BIOLOGY AND ZOOLOGY
MARINE ENVIRONMENTAL STUDIES
MARINE VERTEBRATE ZOOLOGY

www.bangor.ac.uk/study/undergraduate
What is this course about?
This degree focuses on the role of marine sediments and the oceans within the Earth System to understand and interpret past, present and future environments. You will study sedimentary processes (the origin, transport and deposition of particles in the marine environment), marine sediments and rocks. We focus on the role of the shallow seas, which surround the continents, and the interactions that occur where land and oceans meet.

Why choose Bangor?
• Our expertise covers all aspects of the marine sciences, with particular strengths in physical oceanography and the geosciences.
• Local fieldwork takes place in the UNESCO designated Geomôn geopark, Snowdonia National Park, the Menai Strait and the Irish Sea.
• Facilities: research ship, supercomputers and state-of-the-art survey equipment. Oceanographic moorings for data collection.
• We have strong links globally. These include the National Oceanography Centre, the Met Office, and the offshore, hydrocarbon and marine renewables industries.

Indicative Topics
Why choose Bangor?
This course has a strong emphasis on fieldwork. A residential field course takes place in the final year. During the first two years, lectures and practicals are supplemented by regular small group (about 8 students) tutorials during which we develop your critical appraisal and science communication skills.

In the final year you will carry out an individually supervised dissertation on a topic of your choice.

Indicative Topics
Throughout this degree we exploit our location placing a strong emphasis on fieldwork. A final year residential field course is also available. During the first two years lectures and practicals are supplemented by regular small group (about 8 students) tutorials during which we develop your critical appraisal and science communication skills. In the final year you will carry out an individually supervised dissertation on a topic of your choice.

Indicative Topics
Why choose Bangor?
• World-leading research and teaching spanning 50+ years.
• Local fieldwork takes place in the UNESCO designated Geomôn geopark, Snowdonia National Park, the Menai Strait and the Irish Sea.
• Facilities: research ship, supercomputers and state-of-the-art survey equipment. Oceanographic moorings for data collection.
• We share our site with Marine Centre Wales, providing links with those involved with marine renewables, giving you opportunities to undertake projects with industry.

Indicative Topics
Throughout this degree we use our location, placing a strong emphasis on fieldwork including sea-going experience. A final year residential field course is also available. During the first two years lectures and practicals are supplemented by regular small group (about 8 students) tutorials during which we develop your critical appraisal and science communication skills. In the final year you will carry out a dissertation.

Why choose Bangor?
• Local fieldwork takes place in the UNESCO designated Geomôn geopark, Snowdonia National Park, the Menai Strait and the Irish Sea.
• Facilities: research ship, supercomputers and state-of-the-art survey equipment. Oceanographic moorings for data collection.
• We have strong links globally. These include the National Oceanography Centre, the Met Office, and the international offshore, hydrocarbon, and marine renewables industries.

Indicative Topics
During the first two years, lectures and practicals are supplemented by regular small group (about 8 students) tutorials during which we develop your critical appraisal and science communication skills. In the final year, you will carry out an individually supervised dissertation on a topic of your choice. Assessment is through a combination of continuous assessment and formal examination.

This course draws on our expertise in terrestrial and marine sciences that span fluvial, glacial, coastal and deep marine environments.
PHYSICAL OCEANOGRAPHY

MSci (Hons)

What is this course about?
This degree focuses on the study of the physics of the ocean and the processes which link it to the atmosphere and the cryosphere. You'll focus on the roles of the shallow seas, which surround the continents, and on interactions between ice and the oceans. Field work and practical sessions are a key element of this degree. This course places a particular emphasis on gaining skills and knowledge that will be directly relevant to industry, such as future climate change, sea level rise, marine pollution and exploitation of marine energy.

Why choose Bangor?
• Local fieldwork takes place in the UNESCO designated GeoMin geopark, Snowdonia National Park, the Menai Strait and the Irish Sea.
• Facilities: research ships, supercomputers and state-of-the-art survey equipment. Oceanographic moorings for data collection.
• We have strong links globally. These include the National Oceanography Centre, the Met Office, and the offshore, hydrocarbon and marine renewables industries.
• Our graduates work in marine renewables, climate change, research, offshore survey and coastal zone management.

MARINE BIOLOGY

BSc (Hons) / MSci (Hons)

What is this course about?
This course allows you to study the fundamental aspects of the biology of marine life as well as more specialised aspects like aquaculture, fisheries and marine biotechnology. Marine Biology is the study of organisms that occupy 95% of the biosphere of our planet, living in conditions ranging from the polar seas (below -10°C) to hydrothermal vents (greater than 100°C). The sizes of organisms range from the smallest micro-organism on the planet to the largest invertebrates (giant squid) and mammals (blue whales).

Why choose Bangor?
• We are one of the largest university centres teaching marine sciences in Britain and cover the full range of marine sciences.
• Your learning will take place just a few metres from the sea.
• We have a research ship and tropical and temperate marine and freshwater aquaria.
• Our research interests range from tropical coral reefs to the polar oceans.
• Many of our graduates go on to work in conservation, both at home and overseas, with others working in the media.

MARINE BIOLOGY AND OCEANOGRAPHY

BSc (Hons) / MSci (Hons)

What is this course about?
This interdisciplinary degree provides an in-depth study of the biological, chemical and physical processes of the oceans, continental shelf seas and estuaries. You will embark on a detailed study of life in the sea, from the smallest bacteria to the largest mammals. This knowledge will be underpinned by a specialised understanding of how the different marine habitats are affected by key physical and biogeochemical processes that mediate interactions between the atmosphere, ocean and sea floor.

Why choose Bangor?
• Our expertise covers all aspects of the marine sciences. Our research interests range from tropical coral reefs to the polar oceans.
• You will benefit from studying with leading scientists in the fields of marine biology, fisheries, marine chemistry, geosciences and physical oceanography.
• Our unique location is ideal to study local populations of dolphins, seals and sea birds. We are metres away from the Menai Strait and Irish Sea.
• Facilities: research ships, supercomputers and state-of-the-art survey equipment. Oceanographic moorings for data collection.

MARINE BIOLOGY AND ZOOLOGY

BSc (Hons) / MSci (Hons)

What is this course about?
This degree will give you a detailed overview of the diversity of animal life and ecosystems on this planet. We will show you how interactions between animals and their environments apply equally to marine, terrestrial and freshwater habitats. You will be introduced to the fundamentals of biology, ecology and evolution of marine and terrestrial animals and all animal groups. This is a very practical degree, and you will spend time on field trips in the laboratory putting your knowledge into practice.

Why choose Bangor?
• This course is unique.
• Our location is an ideal place to study terrestrial and aquatic habitats, with easy access to the mountains and the sea for field trips.
• Facilities: research ship, workboats, tropical marine, temperate marine and freshwater aquarium, an underground laboratory for the study of soil fauna, and a zoological museum.
• Our teaching laboratories are a few metres from the sea, enabling you to collect marine animals and study them in the same session.

Why choose Bangor?
• Local fieldwork takes place in the UNESCO designated GeoMin geopark, Snowdonia National Park, the Menai Strait and the Irish Sea.
• Facilities: research ships, supercomputers and state-of-the-art survey equipment. Oceanographic moorings for data collection.
• We have strong links globally. These include the National Oceanography Centre, the Met Office, and the offshore, hydrocarbon and marine renewables industries.
• Our graduates work in marine renewables, climate change, research, offshore survey and coastal zone management.

Indicative Topics
The first two years aim at developing a general understanding of the Earth system and the role of the oceans within that system. The third and fourth year then focus on a deeper process understanding and in developing the skills associated with the development of numerical models which can be used to predict future change. The fourth year of this degree features taught modules as well as a scientific research project.
MARINE ENVIRONMENTAL STUDIES
BSc (Hons)

What is this course about?
This is a fully integrated marine science degree incorporating all physical, chemical, biological, and geological aspects of the marine system. We combine this with the principles of conservation, environmental policy and sustainable use of natural resources. We focus on areas of socio-economic activity that are most susceptible to environmental change. As a graduate of this course you will be perfectly placed to take on the challenges of a changing world, where our connection to marine ecosystems has played a key role in society’s prosperity, and will play an even larger role in our future welfare.

Why choose Bangor?
• This course is suitable for anyone, whether you have a science background or not.
• World-leading research and excellence in teaching spanning over 50 years. Local fieldwork takes place in the UNESCO designated GeoMôn geopark, Snowdonia National Park, the Menai Strait and the Irish Sea.
• Facilities: research ship, supercomputers and state-of-the-art survey equipment. Oceanographic moorings for data collection.

Indicative Topics
There is a strong emphasis on fieldwork every year with a final year residential field course available.

During the first two years, you will learn in lectures practicals and small group tutorials designed to develop your critical appraisal and science communication skills.

In the final year you will carry out a dissertation. In the final year of this course you will focus strongly on the marine conservation and environmental policy.

MARINE VERTEBRATE ZOOLOGY
BSc (Hons) / MSci (Hons)

What is this course about?
This degree is perfect for you if you are interested in marine vertebrates. On this degree you will learn about marine organisms and their habitats, and the general principles of marine biology, ecology, conservation, physiology and behaviour. More specialised topics focus on the ecology and conservation of higher order marine vertebrates, including sharks and marine mammals, and the role of these top predators in the marine ecosystem. There will also be opportunities to consider applied aspects of zoology such as fisheries, aquaculture, conservation biology and ecotourism.

Why choose Bangor?
• Our unique location provides easy access to fieldwork around Anglesey coastline and the Snowdonia National Park. The Anglesey coast offers excellent opportunities to study seabirds, seals and dolphins.
• Facilities: research ship, tropical and temperate marine aquaria, and a zoology museum.
• Study on an island on the edge of the Menai Strait, a beautiful stretch of tidal water separating Anglesey, from the mainland.
• Your lecturers undertake research across the planet, from tropical coral reefs to the frozen polar seas.

Indicative Topics
This is a practical degree course, with field trips, lab sessions. A lot of learning is outside as we are on the seashore.

Study marine mammals, sharks and other fish and the ecology of the marine environment.

Throughout this degree we exploit our location, placing a strong emphasis on fieldwork including sea going experience. In Year 3, you will learn about marine mammal identification and survey methods, which will involve ship and/or land-based fieldwork. You will also carry out a dissertation.

COMPUTER SCIENCE

BSc (Hons) / MComp (Hons)

What is this course about?
You will learn the fundamentals of computer science and advanced programming skills and will benefit from being taught by staff that are research active. Specialties include computer graphics, artificial intelligence and agents and data communications. Our aim is simple – we want to help you become a computer professional with the ability to keep yourself up-to-date with the rapid pace of developments in the field of computer science.

Why choose Bangor?
• Our research and other interactions with industry ensure that our courses reflect recent developments. Staff are practising professionals, who work on joint projects and are consultants to industry.
• Final-year projects are aligned with current research – providing you with advantages when seeking employment.
• We have recently installed an immersive technologies laboratory, where the latest devices are used for project and research work.

Indicative Topics
There will be an opportunity to undertake major software projects in Years 2 and 3 which will allow you to develop your creative design and technical skills as well as apply the theoretical principles you have learnt.

The MComp develops your skills to give you extended opportunities in both research and the application of computer science knowledge and skills.

The BSc degree is validated by the British Computer Society which is the Chartered Institute for IT.
Why choose Bangor?
- This exciting course has modules designed to take your game knowledge to the next level. It will provide you with the tools to design and build your own computer network. This work is undertaken in a recently developed specialist network laboratory.
- During the course, you will create games in many formats, including 2D platforms games, 3D games, board games, and card games. "Play" will be used in teaching and development aspects of the course.

Indicative Topics
- This degree is all about game design and the computing power that powers the game. The game design part of this degree is integrated with opportunities to engage critically with theories of gaming culture, mechanics, narratives, and aesthetics.
- During the course, you will create games in many formats, including 2D platforms games, 3D games, board games, and card games. "Play" will be used in teaching and development aspects of the course.

Computer Science with Game Design

BSc (Hons)

What is this course about?
- This degree is all about game design and the computing power behind the games. This degree will allow you to join existing studios or strike out on your own as an independent publisher. You'll learn the fundamentals of computer science and advanced programming skills, and you'll benefit from specific game-design skills. Our aim is simple—we want to help you become a game development professional.

Why choose Bangor?
- This course is strengthened by our close links with the computer industry. Final-year projects are often carried out in collaboration with a company.
- We have recently installed a large networking laboratory. This facility is designed to provide students with the opportunity to design and administer networks and to support the delivery of computer architecture modules.
- We are an Oracle Academy Institutional Member.

Indicative Topics
- New modules have recently been introduced that will enable you to design and build your own computer network. This work is undertaken in a recently developed specialist network laboratory.
- A wide range of project themes are available to suit any interest for the final year projects.

Computer Information Systems

BSc (Hons)

What is this course about?
- This degree explores the application of technology in business and industry. We will provide a grounding in computing, the construction and use of database systems, new technologies, systems administration, artificial intelligence, and business information systems. You will understand the fundamentals underpinning computer information systems administration and will apply them to society and business. Through theory and hands-on practice, you will learn to leverage technology in a business setting giving you the competitive edge. Crucially, you will understand the drivers for the future trends in this fast-moving area.

Why choose Bangor?
- This course is strengthened by our close links with the computer industry. Final-year projects are often carried out in collaboration with a company.

Computer Information Systems for Business

BSc (Hons)

What is this course about?
- This degree explores the application of technology in business and industry. A third of the course is taught by our Business School. You will delve deeply into the impact that technology has on real business situations. Applying knowledge of the commercial world with new technical skills and computing knowledge will put you in a strong position and give you a competitive edge. The fast moving technology and data at the core of successful business will be at your finger tips.

Why choose Bangor?
- This course is strengthened by our close links with the computer industry. Final-year projects are often carried out in collaboration with a company.
- Strong links with the Business School provide an ideal context for the use of technology you will be learning.
- We are an Oracle Academy Institutional Member.

Indicative Topics
- New modules have recently been introduced that will enable you to design and build your own computer network. This work is undertaken in a recently developed specialist network laboratory.
- A wide range of project themes are available to suit any interest for the final year projects.

This degree is validated by the British Computer Society which is the Chartered Institute for IT.

Creative Technologies

BSc (Hons)

What is this course about?
- This exciting degree allows you to study computer science and explore the digital technologies used by the creative industries, including television and radio, film and video, architecture, software, computer games, design, and advertising. Computer science techniques are at the core of many of the application areas in these industries. This course will equip you with a solid grounding in the technical skills required to make you a sought-after professional in this field.

Why choose Bangor?
- We have state-of-the-art display technologies, multi-camera TV studio, professionally equipped radio studio, digital Avid and Matrox digital editing suites, digital cinema and virtual environments.
- This course is strengthened by our close links with the computer industry, including Parc Menai business park, where many tech companies have offices.
- We are an Oracle Academy Institutional Member.

Indicative Topics
- Mixing computing technologies with creative skills will give you access to a wide range of sectors and with a full understanding of how these new technologies can enhance and positively affect all areas of business.
- Give yourself the skills to become a specialist in computing and creativity—not only with the ability to program but to design, create visual plans, storytelling and fabrication.

DATA SCIENCE AND ARTIFICIAL INTELLIGENCE
BSc (Hons)

What is this course about?
This degree provides a firm footing in data handling, analysis and communication of findings and modern research-driven machine learning techniques. You will learn through an inventive combination of computer science fundamentals, programming, data analysis, critical reasoning and machine learning. Graduates of this programme are proficient in using data to derive insight using up-to-the-minute methods and algorithms.

Why choose Bangor?
- This course is strengthened by our close links with the computer industry, including Parc Menai business park, where many tech companies have offices.
- We are an Oracle Academy Institutional Member.
- We have recently installed a large networking laboratory – designed to provide the opportunity to design and administer networks and to support the delivery of computer architecture modules.

Indicative Topics
We place a premium on the responsible use of data and an appreciation of relevant ethical, legal and social issues is embedded throughout. Data is the next Industrial Revolution. This course will prepare you to join the vanguard of extracting exciting and transformative knowledge from the data that surrounds us. You could go on to discover currently invisible patterns leading to lasting solutions to environmental, health, and business problems.

DATA SCIENCE AND VISUALISATION
BSc (Hons)

What is this course about?
This degree provides a firm footing in data handling, analysis and communication of findings and modern research-driven machine learning techniques. This degree bridges the gap between the technical analysis of data, and the wider world. Data is a wonderful thing, and this degree will teach you how to convey its exciting insights to the wider world. On this course you will focus on how to craft and present the arguments and explanations found in data to those that need to act on your findings.

Why choose Bangor?
- This course is strengthened by our close links with the computer industry, including Parc Menai business park, where many tech companies have offices.
- We are an Oracle Academy Institutional Member.
- We have recently installed a large networking laboratory – designed to provide the opportunity to design and administer networks and to support the delivery of computer architecture modules.

Indicative Topics
This degree will enable you to become one of the most important parts of the data driven economy. You’ll learn to ‘speak data’ and ‘speak sense’, giving you the power to communicate the hidden messages behind the world’s data. Become an integral part of the new conversation that is helping shape the modern world.

ELECTRONIC ENGINEERING AND PRODUCT DESIGN

Be Extraordinary at Bangor
What is this course about?
If you’re interested in making your imagination a reality this is the course for you. It focuses on a wide range of design sectors immersing you in the design and manufacture of products. You’ll study human centred design and design thinking methodologies. Every year project work placements with industrial partners will challenge and develop you both creatively and professionally, allowing you to experience a diverse range of working environments, projects and companies.

Why choose Bangor?
- This is the only UK Product Design course with three separate industrial work placements.
- Develop skills enabling you to bring innovative products to market, making life better, easier and more productive for consumers and companies.
- Learn to manage commercial projects professionally, allowing companies to be more effective, competitive and relevant in the world today.

Indicative Topics
The course provides a broad foundation in design and live projects with companies. Your modules each year:
- Workplace experience
- Industrial placement
- Design and manufacture
- Professional practice

You’ll study human-centred design, design thinking methodologies and topics including:
- Principles of design thinking and creativity
- Design communication and modelling
- Computer aided design (CAD) and manufacture (CAM)
- Manufacturing skills and prototyping
- Sustainable development and the circular economy

**CONTROL AND INSTRUMENTATION ENGINEERING MEng (Hons)**

**What is this course about?**

This course will prepare you for work as a professional electronic engineer specialising in control and instrumentation engineering which lies at the heart of many industries, from nuclear and renewable power generation to all sorts of manufacturing industries. You will gain extensive practical experience to ensure that you develop practical skills as well as a thorough theoretical knowledge. You will study general aspects of electronic engineering and specialised modules.

**Why choose Bangor?**

- There is high demand from international employers for graduates. We have a 95% employability rating.
- These degrees are accredited by the Institution of Engineering and Technology (IET). They are also recognised by the European Federation of National Engineering Associations.

**Indicative Topics**

- The first two years of the programme follow the same modules as the Computer Systems Engineering degree. From the third year you will focus on control theory and practice, and knowledge of signal processing and systems.
- Electronic Engineering at Bangor is ranked 4th in the UK for Research. (REF, 2014)

**Possible Topics**

- This degree is tailored to provide the skills required by the sector.
- You will develop the skills and expertise needed to become a specialist in computer system design.

**Course Duration:**

4-5 years with an international/placement/foundation year

---

**ELECTRONIC ENGINEERING BSc (Hons) / BEng (Hons) / MEng (Hons)**

**What is this course about?**

This course will prepare you for a professional career in electronic systems design. We will give you a thorough grounding in all the latest techniques in analogue and digital electronics. We are known for our emphasis on practical skills, and this degree will give you extensive practical experience which will complement the theoretical knowledge you will develop during the course.

**Why choose Bangor?**

- There is high demand from international employers for graduates of this course.
- We have a strong research base in optoelectronics, communications, microelectronics, bioelectronics and materials science, and organic and plastic electronics. Electronic Engineering at Bangor is ranked 4th in the UK for Research. (REF, 2014)

**Indicative Topics**

- This degree is tailored to provide the skills required by the sector.
- With the continuing increase in demand for electronics, you will be able to apply these new skills to more advanced concepts in electronic circuits, including VLSI and digital circuits, sustainable project management and microelectronics and nanophotonics.

**Possible Topics**

- This degree is accredited by the Institution of Engineering and Technology - you will gain exemption from the admission examinations enabling you to apply for membership and become a Chartered Engineer.
- It is also recognised by the European Federation of National Engineering Associations.

SPORT AND EXERCISE SCIENCES

Be Extraordinary at Bangor
ADVENTURE SPORT SCIENCE

BSc (Hons)

What is this course about?
A unique combination of essential sport science knowledge (psychology, physiology, and coaching) with the opportunity to develop your own adventure tourism and outdoor practitioner skills. You’ll apply this knowledge in various field-based settings, work-based environments and state-of-the-art laboratories including high altitude and environmental chambers. Graduating with ‘hands on’ experience and an understanding of human responses to adventure environments and performance in adventure sports, you’ll have the skills for a career in the expanding adventure market.

Why choose Bangor?
• Ideal location with an abundance of mountains, coastlines, rivers, cliffs, beaches and adventure tourist attractions within easy reach.
• 5th for Research Quality – (Complete University Guide 2021).
• Staff are high quality researchers, and many participate in outdoor and high-risk activities e.g. climbing, canoeing, skiing etc.
• Vocational elements of this degree delivered by external staff with qualifications and practical outdoor experience.
• Opportunities to attain National Governing Body awards.

Indicative Topics
You’ll become an adventure specialist able to apply core sport science knowledge and a practical skill set to mountain- and water-based adventure activities.

Topics include:
- Water and land-based adventure activity
- Outdoor adventure therapy
- Research expedition
- Environmental physiology
- Sport and exercise physiology
- Biomechanics
- Applied sport science
- Psychology of sport performance
- Stress and performance
- Personality and individual differences

SPORT AND EXERCISE SCIENCE*  
BSc (Hons)

What is this course about?  
Elite athletes are taking an increasingly scientific approach to training. Recreational exercisers and patients living with disease are turning to science via apps and biotech devices to monitor their training, recovery, health and well-being. This modern, hands-on, research-led degree will equip you with a critical understanding of the science of human function, providing the skills and experience needed to develop innovative psychological and physiological interventions to promote sport performance, exercise and health.

Why choose Bangor?  
• 95% Student Satisfaction – Sport, Health and Exercise Science (NSS 2020).  
• 5th for Research Quality (Complete University Guide 2021).  
• Excellent Laboratories including £1m exercise physiology lab, environmental and high-altitude chambers, motion analysis, biochemistry, cell biology and sports psychology labs.  
• This course provides the skillset a modern, forward-thinking, sport and exercise scientist needs for a successful professional career.  
• Be that in elite sport, business, exercise, rehabilitation, or health.

Indicative Topics  
- The inclusion of the latest psychophysiological and anthropometric research in sport and exercise allows our students to bridge the traditional boundaries between disciplines and graduate with an appreciation of how the many areas of sport and exercise science interrelate.

Why choose Bangor?  
• 5th for Research Quality (Complete University Guide 2021).  
• Internationally renowned Institute for the Psychology of Elite Performance (PEP) with state-of-the-art sports psychology laboratories.
• Top 10 for Value Added shows we help each student achieve their potential (Guardian Good University Guide 2021).

Indicative Topics  
- Taught by renowned chartered psychologists, topics provide an understanding of the physiology of exercise and how the mind and body interact to influence performance. Bangor currently houses one of the largest concentrations of performance focused psychology academics in the world.

Top topics include:  
- Psychology  
- Performance  
- Physiology  
- Biomechanics  
- Human anatomy  
- Sport nutrition  
- Rehabilitation

SPORT AND EXERCISE PSYCHOLOGY  
BSc (Hons)

What is this course about?  
You’ll learn about what sport and exercise psychologists do, how they do it, and why. You’ll learn from expert staff about a range of topics from how sport performers thrive under pressure to what motivates exercisers to engage in physical activity. You’ll also complete a novel research project that enhances what we know about the application of psychological factors related to exercise and sport, preparing you for a career as a sport psychologist.

Why choose Bangor?  
• 100% Student Satisfaction – Sports, Health and Physical Education (NSS 2020).  
• 5th for Research Quality (Complete University Guide 2021).  
• Close links with high-profile bodies (e.g., NHS, military, UK Sport, Sport Wales, Premier League football teams, England and Wales Cricket Board) and with world-leading athletes.  
• Ideal if you are interested in teaching, working in grassroots, elite coaching or working in any field aiming to improve sports performance through science.  
• Support to gain vocational qualifications.

Indicative Topics  
- Coaching  
- Physical education  
- Talent identification and development  
- Strength and conditioning  
- Sport psychology  
- Biomechanics  
- Sport nutrition

SPORT SCIENCE, PHYSICAL EDUCATION AND COACHING*  
BSc (Hons)

What is this course about?  
Geraint Thomas, Gareth Bale and Sam Warburton were all coached by the same great PE teacher! If you find such coaching excellence as inspiring as we do, then this degree is for you. You’ll develop critical thinking and applied vocational skills and adopt evidence-based practice, cultivating your skills in a supportive, forward-thinking, sport and exercise science environment. Taught by experts who currently contribute to national educational policy and coaching knowledge, the degree covers contemporary teaching approaches within education and coaching.

Why choose Bangor?  
• 100% Student Satisfaction – Sports, Health and Physical Education (NSS 2020).  
• 5th for Research Quality (Complete University Guide 2021).  
• Includes practical modules and sport related work placements.  
• Close links with high-profile bodies (e.g., NHS, military, UK Sport, Sport Wales, Premier League football teams, England and Wales Cricket Board) and with world-leading athletes.

Indicative Topics  
- Coaching  
- Physical education  
- Talent identification and development  
- Strength and conditioning  
- Sport psychology  
- Biomechanics  
- Sport nutrition

SPORT SCIENCE, STRENGTH AND CONDITIONING*  
BSc (Hons)

What is this course about?  
Strength and conditioning is a key component of every athlete’s training regime. Home to the Weightlifting Wales National Performance Centre, Bangor is ideally placed to provide real-world experience in strength and conditioning. You’ll have access to the 470 square meter Performance Training Centre, our World Rugby and FIFA standard 3G artificial pitch and state-of-the-art sport science laboratories. You’ll gain modern theoretical knowledge of sport science, strength and conditioning and develop practitioner skills.

Why choose Bangor?  
• 100% Student Satisfaction – Sports, Health and Physical Education (NSS 2020).  
• 5th for Research Quality (Complete University Guide 2021).  
• Includes practical modules and sport related work placements.  
• Close links with high-profile bodies (e.g., NHS, military, UK Sport, Sport Wales, Premier League football teams, England and Wales Cricket Board) and with world-leading athletes.  
• Excellent laboratories including £1m exercise physiology lab, environmental and high-altitude chambers, motion analysis, biochemistry, cell biology and sports psychology labs.

Indicative Topics  
- Coaching  
- Physical education  
- Talent identification and development  
- Strength and conditioning  
- Sport psychology  
- Biomechanics  
- Sport nutrition

PSYCHOLOGY

Be Extraordinary at Bangor
PSYCHOLOGY WITH FORENSIC PSYCHOLOGY
BSc (Hons)

What is this course about?
Alongside general psychology modules, you’ll specialise in understanding the psychological factors behind why people may commit criminal or deviant behaviour. You’ll use critical skills and evidence, based on research, to explore how forensic psychologists may contribute to debates on policing, crime, the criminal justice system and rehabilitation. As well as understanding some of the reasons why people may commit offending behaviours, you will also explore the ways in which forensic psychologists can work to treat and rehabilitate offenders.

Why choose Bangor?
- 6th (of 119) in UK for student satisfaction (NSS 2020).
- 2nd (of 115) for course satisfaction (Guardian University Guide 2021).
- Specialist research labs including an MRI scanner, TMS, ERP, EEG and a Brain Anatomy lab.
- Academic expertise in forensic psychology, criminology and criminal justice and an exciting array of dissertation topics.

Accredited by the British Psychological Society providing graduate basis for chartered membership (BSc) which is essential for starting any career in psychology.

Indicative Topics
In addition to research methods, scientific writing and communication skills, you can study a broad range of topics including:
- Behavioural psychology
- Neuropsychology
- Language
- Physical and mental health
- Applied psychology
- Biological psychology
- Developmental psychology
- Personality and individual differences
- Social psychology
- Clinical psychology
- Cognitive psychology
- Neuroscience
- Addictive behaviours
- Consumer psychology

FORENSIC PSYCHOLOGY
BSc (Hons)

What is this course about?
This ‘pure psychology’ course will allow you to gain a scientific understanding of the basic processes by which we learn, think, feel and adapt to our social conditions. The course covers the investigation of behaviour from infancy to old age, and deals with the biological, social and individual factors that affect human psychology. This course offers the widest choice of modules in the third year enabling you to tailor your study as your interests develop.

Why choose Bangor?
- 96% Student Satisfaction (NSS 2020).
- 2nd (of 115) for course satisfaction (Guardian Good Uni Guide 2021).
- Top 20 for Research Quality (Complete University Guide 2021).
- Specialist research laboratories including an MRI scanner, TMS, ERP, EEG and a brain anatomy lab.
- Unique learning experiences currently include hands-on human brain anatomy, gamified lectures and a positive psychology module that gets you running!

Accredited by the British Psychological Society providing graduate basis for chartered membership (BSc) which is essential for starting any career in psychology.

Indicative Topics
In addition to research methods, scientific writing and communication skills, you can study a broad range of topics including:
- Behavioural psychology
- Neuropsychology
- Language
- Physical and mental health
- Applied psychology
- Biological psychology
- Developmental psychology
- Personality and individual differences
- Social psychology
- Clinical psychology
- Cognitive psychology

### PSYCHOLOGY WITH CLINICAL AND HEALTH PSYCHOLOGY BSc (Hons)

**What is this course about?**
You’ll specialise in understanding the psychological factors involved in mental and physical health, their causes, treatment and prevention. In clinical psychology, you’ll study behavioural problems in children, mental illness in adults, and psychological problems in old age including important contemporary issues such as eating disorders and drug misuse. In health psychology, you’ll examine the psychological factors that lead some individuals to behave in health-damaging ways and what happens when individuals become ill or disabled.

**Why choose Bangor?**
- 92% Student Satisfaction (NSS 2020).
- 2nd (of 115) for course satisfaction (Guardian Good Uni Guide 2021).
- Top 20 for Research Quality (Complete University Guide 2021).
- Specialist research laboratories including an MRI scanner, TMS, ERP, EEG and a brain anatomy lab.
- Academic expertise in clinical and health psychology and an exciting array of dissertation topics e.g. investigating student drinking behaviour, adverse childhood experiences, personality disorders and eating behaviour.

**Indicative Topics**
In addition to research methods, scientific writing and communication skills, you can study topics including:
- Behavioural psychology
- Neuropsychology
- Language
- Physical and mental health
- Applied psychology
- Biological psychology
- Developmental psychology
- Personality
- Social psychology
- Clinical psychology
- Cognitive psychology
- Addictive behaviours
- Stress, anxiety and health
- Brain development and degeneration
- Forensic psychology
- Counselling
- Mindfulness

Accredited by the British Psychological Society providing graduate basis for chartered membership (GBC) which is essential for starting any career in psychology.

### PSYCHOLOGY WITH NEUROPSYCHOLOGY BSc (Hons)

**What is this course about?**
You’ll specialise in understanding the structure of the human brain, and how it functions to enable perception, thought, emotion, language and behaviour. You’ll analyse what happens when the brain is damaged or impaired, e.g. in head injury, stroke or Alzheimer’s disease and how such patients can be helped through rehabilitation. You’ll become acquainted with advanced techniques such as functional magnetic resonance imaging (fMRI) and event-related potentials (ERPs) for observing brain activity and diagnosing problems.

**Why choose Bangor?**
- 100% Student Satisfaction (NSS 2020).
- 2nd (of 115) for course satisfaction (Guardian Good Uni Guide 2021).
- Top 20 for Research Quality (Complete University Guide 2021).
- Specialist research laboratories including an MRI scanner, TMS, ERP, EEG and a brain anatomy lab.
- Expertise in neuroscience and an exciting array of neuropsychology dissertations e.g. how brains process information from prosthetic limbs or how brain activity differs with different languages.

**Indicative Topics**
In addition to research methods, scientific writing and communication skills, you can study topics including:
- Behavioural psychology
- Neuropsychology
- Language
- Physical and mental health
- Applied psychology
- Biological psychology
- Developmental psychology
- Personality
- Social psychology
- Clinical psychology
- Cognitive psychology
- Brain and language
- Neuroscience
- The body in the mind
- Psychosocial medicine
- Forensic psychology

Accredited by the British Psychological Society providing graduate basis for chartered membership (GBC) which is essential for starting any career in psychology.

MEDICAL AND HEALTH SCIENCES

Be Extraordinary at Bangor
Bangor University is delivering the C21 north Wales Graduate entry to medicine 4 year programme (MBBCh) in collaboration with Cardiff University’s School of Medicine. The programme is entirely based in north Wales with placements across the region and we aim to train the very best doctors for Wales and more widely in the UK by providing high quality teaching, and an inspiring learning experience based around increased clinical contact.

Students on this Medicine programme will broadly follow the same curriculum as those based in Cardiff but with a greater focus on community medicine through a range of clinical placements in varied environments including a full year at a GP Surgery, time in large teaching hospitals in Wales’ largest health board, mountain medicine and rural environments.

This course accepts high performing students from recognised feeder stream courses linked to Cardiff’s School of Medicine’s Graduate Entry Programme and also students already accepted onto Cardiff’s A100 Medicine programme who wish to transfer after successful completion of their first year. See our website for more details: www.bangor.ac.uk/medical-sciences/medicine-north-wales. Applications are made via Cardiff University.
BIOMEDICAL SCIENCE

BSc (Hons)

What is this course about?
This course was designed in collaboration with NHS clinical laboratories and will give you an understanding of the biology of disease, including modern concepts and applications of biomedical science in the research, diagnosis and treatment of clinical disorders. There is a growing need for graduates experienced in the application of diagnostic and molecular techniques that are revolutionising disease diagnosis and treatment in the NHS, Armed Forces, industry, academia and research.

Why choose Bangor?
- Top 5 for Teaching Quality and Student Experience (Times Good University Guide 2021).
- Excellent facilities including cutting edge, specially designed teaching laboratories.
- NHS pathology lab work experience, designed to meet HCPC requirements for registration as a Biomedical Scientist and graduate with an Applied Biomedical Science degree, available on a competitive basis.

Diagnostic RADIOGRAPHY

BSc (Hons)

What is this course about?
Diagnostic radiography is an invaluable aid in the diagnosis of disease. Diagnostic radiographers are responsible for the production of images involving the use of x-rays and other methods including ultrasound, computed tomography (CT), radionuclide imaging (RN) and magnetic resonance imaging (MRI). You will learn about how x-rays are produced and the anatomy of the human body, and also how to talk to people and what sort of things patients/service users may be concerned about.

Why choose Bangor?
- Top 5 for Research Quality (Times Good University Guide 2021).
- NHS funding currently available to cover fees and a contribution to living costs.
- Access to state-of-the-art technology and the first immersive simulation equipment outside of Medical School.
- Excellent facilities including genetics, biochemistry and biomedical science laboratories.

MEDICAL BIOLOGY

BSc (Hons)

What is this course about?
Medical Biology is the cornerstone of modern health care and drug development, forming a bridge between fundamental research and clinical medicine. You’ll learn about cellular and genetic causes of major medical disorders such as cancer and autoimmune diseases with a strong emphasis on pre-clinical research and modern laboratory skills. You’ll also benefit from the expertise of the North West Cancer Research Institute. Graduates work in biotechnology, drug development, clinical research or public health services.

Why choose Bangor?
- Top 5 for Teaching Quality and Student Experience (Times Good University Guide 2021).
- Our expertise in medical biology encompasses studies into cell cycle research, cancer biology, neurobiology and development, cell and genome biology.
- Excellent facilities include well-equipped cell and molecular research labs and newly refurbished practical teaching labs.

MEDICAL SCIENCES

BMedSci (Hons)

What is this course about?
Exploring the workings of the human body in health and disease, medical science focuses on human physiology and anatomy, clinical diagnostics, infectious disease and therapeutics, from molecular defects to gross anatomical changes. Grounded in modern medical practice this degree gives you skills to enter a range of clinical care pathways including Physican Associate, Physiotherapy and Paramedic Science. There is also the potential for graduate entry into Medicine, including Cardiff’s MBCh B21 north wales degree delivered in Bangor.

Why choose Bangor?
- Top 5 for Teaching Quality and Student Experience (Times Good University Guide 2021).
- A focus on human physiology and anatomical teaching, including access to a cadaveric dissection room, which is rare outside of Medical Schools.
- Excellent facilities including genetics, biochemistry and biomedical science laboratories.

**ADULT NURSING**

BN (Hons)

**What is this course about?**
Adult nurses assess, diagnose, plan, implement and evaluate care supporting the patient’s recovery or the ability to live as well as possible with their condition. Theoretical modules provide you with the knowledge and clinical skills to undertake clinical placements in community and hospital settings, with experiences in a range of adult related areas. Career opportunities exist in community and hospital settings, with experiences in a wide variety of settings including urban and rural, community, special care baby units, hospices and mental health.

**Why choose Bangor?**
- Top 10 for Careers (Guardian Good University Guide 2021).
- Top 15 for Nursing and Midwifery (2nd in Wales) (Times Good University Guide 2021).
- NHS funding currently available to cover fees and a contribution to living costs.
- Bangor and Wrexham campuses can offer flexibility in where you study and clinical placements are available across north Wales.

**Indicative Topics**
The course is 50% theoretical study and 50% spent in clinical practice in hospitals, community and residential settings with opportunities to experience bilingual practice.

You’ll study generic topics such as anatomy and physiology, psychology, sociology, communication, reflection, law and ethics with student nurses on other pathways.

Topics specific to adult nursing include:
- Person-centred adult nursing
- Safeguarding adults
- Principles of transforming care

**CHILDREN’S NURSING**

BN (Hons)

**What is this course about?**
Children and young people’s (CYP) nurses care for all ages, from newborn to adolescent, with a range of physical, emotional and mental health needs. CYP nurses also work closely with family members and carers to reduce the impact of being ill or in hospital. The course includes generic nursing topics and child field specific subjects and placements in a wide variety of settings including urban and rural, community, special care baby units, hospices and mental health.

**Why choose Bangor?**
- Top 10 for Careers (Guardian Good University Guide 2021).
- Top 15 for Nursing and Midwifery (2nd in Wales) (Times Good University Guide 2021).
- NHS funding currently available to cover fees and a contribution to living costs.
- Bangor and Wrexham campuses can offer flexibility in where you study and clinical placements are available across north Wales.

**Indicative Topics**
The course is 50% theoretical study and 50% spent in clinical practice in hospitals, community and residential settings with opportunities to experience bilingual practice.

You’ll study generic topics such as anatomy and physiology, psychology, sociology, communication, reflection, law and ethics with student nurses on other pathways.

Topics specific to CYP nursing include:
- Physiological and psychosocial development
- CYP palliative care
- Life-threatening and long-term conditions in CYP
- Rights of the CYP

**LEARNING DISABILITIES NURSING**

BN (Hons)

**What is this course about?**
Learning disability (LD) nursing focuses on the value and rights of the person, effective communication, person centred practice and using evidence-based practice to improve the health and well-being of people with a learning disability. LD nurses consider health in the widest possible sense and work in a range of careers with children or adults facing physical and mental health challenges or living with learning disabilities, helping clients to live their lives as fully and independently as possible.

**Why choose Bangor?**
- Top 10 for Careers (Guardian Good University Guide 2021).
- Top 15 for Nursing and Midwifery (2nd in Wales) (Times Good University Guide 2021).
- NHS funding currently available to cover fees and a contribution to living costs.

**HEALTH AND SOCIAL CARE**

**BA (Hons)**

**What is this course about?**

It emphasises the social experiences of health and care and the management of services and how this provision is influenced by society, the economy, political and ethical factors. You'll develop a detailed understanding of key contemporary issues shaping our health and our society and therefore the well-being of individuals and their communities. This course is perfect for anyone with an interest in playing a proactive role in improving the care given to vulnerable members of society.

**Why choose Bangor?**

- 92% Student Satisfaction (NSS 2020).
- Leads to careers in areas such as health services management, research, health promotion and social and community work as well as an alternative route into healthcare professions such as Nursing.
- New, modern course content focuses on the key contemporary issues.
- Flexible degree structure offers a range of specialisms that enables you to tailor your degree to your needs and interests.

**Indicative Topics**

You'll gain an in-depth understanding and practical experience of health and social care policies, theory and practice, and the skills to be able to work in a multidisciplinary environment. Interlinked topics include:

- The NHS and its value to the UK
- Social determinants of health
- Global health and welfare systems
- Traditional and non-traditional health treatments
- Mental health
- Public health
- Social work
- Identity and diversity
- Ageing and well-being

ACCOUNTING AND FINANCE

BSc (Hons)

What is this course about?
This professionally accredited course will equip you with the skills, knowledge and confidence that are key to a successful career. The degree could take you into the dynamic world of multinational companies and international financial markets. Alternatively, you might choose to use the skills and experience to work in the public sector or set up your own business. You will learn the role that accounting plays within organisations, and how to apply this information to make a real impact on management decisions.

Why choose Bangor?
- Exemptions from core examinations offered by professional accountancy bodies.
- A focus on current issues and developments in accounting, corporate finance and financial markets.
- Rigorous academic content is combined with a real practical focus leading to excellent career prospects.
- UK Top 10 for Accounting and Finance (Complete Uni Guide 2021)
- You will be taught by leading researchers and academics who have worked professionally in the accounting industry using a variety of methods.

Indicative Topics

Year 1
- Management and financial accounting
- Business analytics
- The economic environment
- The business context for accounting practice

Year 2
- Financial reporting
- Performance management
- Financial markets and investment
- Accounting information systems

Year 3
- Auditing and assurance
- Advanced accounting theory and practice
- Taxation
- Financial management

This degree will offer students the chance to choose optional modules at each level.

- Management and financial accounting
- Business analytics
- Core economics
- Business management

Year 2  
- Financial reporting
- Management accounting and control
- Accounting information systems
- Corporate governance

Year 3  
- Advanced accounting theory and practice
- Financial management
- Strategic management
- Entrepreneurship

This degree will offer students the chance to choose optional modules at each level.

BANKING AND FINANCE  
BSc (Hons)

What is this course about?
This degree will allow you to develop specialist knowledge of the financial intermediaries, markets and institutions which lie at the heart of modern economics. You will learn about the roles that banks fulfil in providing credit and liquidity to the economy and in mitigating and managing risks, as well as the ability of financial markets to satisfy different needs. You will develop knowledge and skills which are highly valued within the financial sector and which will provide a firm foundation for your future career.

Why choose Bangor?
- You will be taught by research active staff, with interests in a wide variety of economic topics, including labour markets, political economy, quantitative economics, migration and public finance.
- You can combine your study of economics with options from within the Business School (such as management, banking or accountancy) or elsewhere in the University (such as language study).

Indicative Topics

Year 1  
- Principles of banking
- Introduction to financial markets
- Principles of economics
- Business analytics

Year 2  
- Corporate finance
- Personal finance and banking
- Investment banking
- Data analysis

Year 3  
- International banking
- Bank management
- Market risk analytics
- Portfolio management
- Econometrics

This degree will offer students the chance to choose optional modules at each level.

ECOMOMICS*  
BSc (Hons)

What is this course about?
Studying this degree will give you an understanding of modern economic issues and policies, and the ways that the world economy functions. You will gain insights into the ways that firms compete, the behaviours of individuals as consumers and workers, and how governments attempt to manage and regulate these processes. You will learn how these factors shape society by influencing economic growth, inequality, sustainability and the response to natural and man-made crises. You will build skills in modelling, data and analytical thinking.

Why choose Bangor?
- You will be taught by research active staff, with expertise in a wide variety of topics in economics and finance.
- You will learn from staff who are engaged with policymakers in government, regulators, as well as practitioners in the financial sector.
- You can combine your study of economics and finance with optional modules from within the Business School (such as sustainability, banking or accountancy) or elsewhere in the University (such as language study).

Indicative Topics

Year 1  
- Principles of economics
- History of economic development
- School of economic thought

Year 2  
- Microeconomics
- Macroeconomics
- Contemporary economic events

Year 3  
- Competition and strategy
- Development economics
- Applied economics
- Econometrics

This degree will offer students the chance to choose optional modules at each level.

BUSINESS, MARKETING AND MANAGEMENT

BUSINESS MANAGEMENT
BSc (Hons)

What is this course about?
A Business Management degree allows you to develop a broad understanding of business organisations and will gain subject-specific knowledge in all disciplines of business. The course incorporates academic theories and real-world challenges to help you understand trends and navigate change. This degree will enable you to become a strategic problem-solver who can take a multidisciplinary approach to analysing international business challenges in large or small businesses and the not-for-profit sector.

Why choose Bangor?
• Top 25 in UK for Research Intensity (Complete University Guide 2021) with 68% of research rated as either ‘world-leading’ or ‘internationally excellent’ (REF 2014).
• Engaging and innovative programme using a multidisciplinary approach to analysing international business challenges.
• Ignite your future career whether you want to start your own business, join a large or small corporation, social enterprise or the not-for-profit sector.

Indicative Topics
Year 1
- Principles of business and management
- Key influences affecting the business environment including business ethics, innovation, globalisation and economic and social trends

Years 2 and 3
- The evolution of management thought
- Making an effective operations strategy
- Law for business
- Work placement
- Entrepreneurship using design thinking
- Corporate social responsibility and sustainability
- International business competency
- Entrepreneurship, capital and the firm

*Chartered Institute of Marketing accreditation from 2022.
Bangor Business School adopts the Principles of Responsible Management Education (PRME) and the School has signed up to the UN Global Compact and UN Sustainable Development Goals. The stage can be used to obtain Membership of the Chartered Management Institute. In the future this will also include the Chartered Institute of Personnel and Development (CIPD).
**MANAGEMENT WITH HUMAN RESOURCE MANAGEMENT* BSc (Hons)

What is this course about?
People are the most important asset of any thriving organisation and the effective management of human resources is key to any successful business. This has led to an increase in human resource management (HRM) jobs both in the UK and around the world. This course helps to develop a knowledge of business and management and an understanding of the strategic role HR plays in organisations. You will develop your skills in planning, implementing, managing, and evaluating marketing programmes. This course will help you develop the necessary knowledge and skills essential for a successful career in the real world of marketing.

Why choose Bangor?
• Real world experience of human resource management, ensuring you are equipped to make an immediate impact to allow a better understanding of the role of HRM in the organisation.
• Develop HR competence such as managing change, employment relations, motivation and leadership skills in a business and management context.
• Our enthusiastic staff will offer insight into how organisations develop positive working cultures and respond proactively and creatively to contemporary business issues and challenges.

**MARKETING BSc (Hons)

What is this course about?
This degree will allow you to gain a scientific understanding of the marketing process. The course covers an up-to-date perspective on marketing that includes the importance of the digital environment and big data. You will develop the skills to understand consumers, what they want, and how to promote products, services, and experiences to them. You will also develop skills in planning, implementing, managing, and evaluating marketing programmes. This course will help you develop the necessary knowledge and skills essential for a successful career in the real world of marketing.

Why choose Bangor?
• Highly valued by employers and competitive advantage into careers such as branding, marketing research, digital marketing, and social media consulting.

**TOURISM MANAGEMENT* BSc (Hons)

What is this course about?
This course is about an integrated approach to management in the tourism sector. It combines study of a range of academic perspectives relevant to tourism with opportunities for practical experience ‘on the doorstep’ in tourism activities in an area of outstanding natural beauty – which regularly is highly rated for both physical and experiential aspects of tourism. Topics incorporate contributions from tourism practitioners in enterprises of all sizes (particularly SME), operating different business models (year-round, seasonal), for profit, social enterprises, voluntary sector; in Wales and around the World.

Why choose Bangor?
• North Wales has a long history of tourism encompassing the spectrum of interests, including heritage and cultural tourism, outdoor tourism, adventure and extreme sport tourism, food tourism.
• The best location to study the tourism environment – north Wales is among 25 of the ‘best trips in the world’ to take in 2020 (National Geographic’s international editorial teams).
• Bangor University has strong links with the tourism industry across academic disciplines, bridging theory and practice.
• Engagement with recent major tourism trends – eco-tourism, food tourism, sustainable tourism.

Indicative Topics
Year 1
- Principles of marketing
- Principles of management
- Professional marketing practice
- Marketing case studies
Year 2
- Consumer behaviour
- Marketing research
- Services marketing and customer loyalty generation
- Marketing communications
Year 3
- International marketing
- Customer insight project
- Brand management
- Digital and social media marketing

Indicative Topics
Management and marketing topics, with a focus on tourism.
Opportunities for internships with tourism providers in Wales, and exchange visits outside UK.
An integrated experience across academic disciplines, bridging theory and practice.
Optional modules in subjects such as heritage, outdoor pursuits and sustainability.

LAW WITH WELSH
LLB (Hons)

What is this course about?
This unique course will give you the skills and knowledge necessary in Wales' bilingual society to take up important legal roles where the ability to perform with equal ability in Welsh and English is essential. With the passing of the Government of Wales Acts 1998 and 2006, legislation enacted by the Senedd Cymru or Welsh Parliament must be published bilingually. This has raised a huge demand within Wales not only for lawyers who can competently read and understand both versions of the text, but who can also contribute to the bilingual drafting of the legislation.

Why choose Bangor?
• Our LLB Law with Welsh degree was the first of its kind in Wales.
• Top 25 Law School in the UK (Guardian University Guide 2021).
• Top 15 Law School for Student Satisfaction (The Complete University Guide 2021).
• Supportive study environment with a dedicated moot court room, law library and smaller class sizes which encourages students to engage fully with the teaching experience.

All our LLB courses are Qualifying Law Degrees and are accredited by the Solicitors Regulation Authority and the Bar Council.

LAW WITH MODERN LANGUAGES*

What is this course about?
Our Law with Modern Languages pathway allows you to study a language (French, Italian, Spanish, German or Chinese) alongside your law modules. Lawyers with additional linguistic skills are in high demand in the UK and abroad, and this degree ensures you develop a working competency in another language. You can even choose to study the language as a complete beginner or as an intermediate learner!

LAW WITH HISTORY

What is this course about?
This pathway explores the natural interface between Law and History, allowing you to choose from a wide variety of fascinating history subjects alongside your law modules. Learn more about the Tudor or Norman periods, Welsh history or the post-War era, to better appreciate how these historical periods have had an influence on the development of legal principles we still use today. This is a great combination of subjects that is sure to broaden the appeal of your degree.

LAW WITH SOCIETY

What is this course about?
This pathway gives you a unique opportunity to study key areas of sociology and social policy that affect the law, such as policing, sentencing, court systems, housing, welfare and immigration. Gaining knowledge and experience in such issues will give you an excellent foundation for success in a wide range of exciting careers, such as the legal profession, probation, police, social work, government and beyond.

Please see the website for more information.

CRIMINOLOGY AND CRIMINAL JUSTICE BA (Hons)

What is this course about?
This course provides an excellent opportunity to combine complementary subjects and investigate the social and political facets of Criminology and Criminal Justice. You will explore theories and evidence relating to crime, criminals and victims, while also exploring various responses to crime and victims and the way in which the criminal justice system works. Through consideration of matters such as health, poverty, race and deprivation, you will also investigate the causes and solutions of social problems.

Why choose Bangor?
- You’ll be taught by an innovative team at the cutting-edge of current research.
- Our links with criminal justice agencies (locally, nationally and internationally).
- Flexibility: you can specialise or select a broad range of options.
- The first year is designed to give you a solid grounding in the subject – building your confidence, knowledge and skills.
- A range of topics on offer, including the study of youth offending, victimology and organised crime.

Indicative Topics
- Teaching staff who combine research careers with a real dedication for teaching.
- Links with relevant agencies (locally, nationally and internationally).
- Innovative courses that reflect the topicality of the subject area.
- A range of visiting speakers enhances the learning experience.
- A degree structure that allows you to specialise or to cover a broad range of options.

Why choose Bangor?
- Our links with criminal justice agencies (locally, nationally and internationally).
- Innovative teaching through to imprisonment and rehabilitation.
- Our teaching and research reflect Sociology as an international discipline.
- Our offer a friendly and engaging learning environment.
- Teaching will be expert-led and driven by cutting-edge research geared to meet real-world needs.
- We use a variety of innovative learning approaches to develop both personal, academic and practical skills – much valued by employers.

SOCIOLGY

BA (Hons)

What is this course about?
By understanding the social world, we gain a better understanding of ourselves and our own social situations. Studying Sociology will allow you to do just that, by investigating social life and the way it shapes people’s behaviour, beliefs and identity. Subjects studied range from examination of the face-to-face interactions of daily life, to large-scale social institutions, social movements and global processes.

Why choose Bangor?
- Our teaching and research encompasses Welsh, UK and international perspectives.
- Staff expertise enables you to critically engage and explore these two challenging and exciting disciplines.
- Our links with employers and agencies.
- Visiting speakers bring additional insights and enhances the learning experience.
- The course provides a sound foundation for a wide range of careers (e.g. in the media, administration, community work, policing, the prison service).

SOCIOLGY AND CRIMINOLOGY AND CRIMINAL JUSTICE BA (Hons)

What is this course about?
This course gives you the opportunity to explore the complexities of the world we live in through in-depth study of concepts, themes and perspectives. You will investigate social life, society and social institutions, and examine theories and evidence relating to crime, offending behaviour, victimisation, social control, punishment and crime prevention. By understanding the social world, we gain a better understanding of ourselves and our own social situations.
SOCIOLOGY AND SOCIAL POLICY

BA (Hons)

What is this course about?
Sociology explores social life including identities, institutions, social movements and global processes. Social Policy involves the study of social relations and systems that promote well-being. In combining these subjects, you will explore the causes and solutions of social problems in areas such as poverty and inequality both globally and locally. By engaging with debates about social justice and the creation of a fairer society we gain a better understanding of ourselves and society.

Why choose Bangor?
• Vibrant community at both undergraduate and postgraduate level.
• Focus on relevant, topical and contemporary societal issues.
• Teaching is based on research work by academics.
• Friendly and approachable staff.
• Assessments are varied with few exams.
• Work placement module available.

Indicative Topics
Year 1
- Understanding society
- Power, freedom and the State
- Criminology
- Criminal justice

Years 2 and 3
- Social and political research
- World poverty and inequality
- Classical social theory
- Contemporary social and political debates
- Identity and diversity
- Modern ideas and movements
- Social issues
- Issues in housing
- Theorizing society and politics
- Gender perspectives
- Power, crime and punishment
- Research project

Professional Policing

BA (Hons)

What is this course about?
This degree, licensed by the College of Policing, is run by Bangor University in partnership with Grŵp Llandrillo Menai and draws on expertise in criminology and police procedure from both institutions. This course will equip you with the skills to adapt to the professional complexity of modern-day policing, including the changing nature of crime and demands on police services. The course is delivered between Grŵp Llandrillo Menai and Bangor University.

Why choose Bangor?
• Close links to North Wales Police and other criminal justice agencies.
• Taught by research-active criminologists and experienced former police officers.
• This course is designed to provide students with effective engagement with the College of Policing curriculum blending practical and academic learning.
• The course builds on experience from Grŵp Llandrillo Menai’s highly successful Police Foundation course.
• Our dedicated team of course co-ordinators and personal tutors, provide support and guidance.

Indicative Topics
Year 1
- Understanding the Police Constable role
- Introduction to criminal justice
- Introduction to the legal framework for policing
- Introduction to criminology

Year 2
- Applying theory to practice
- Policing the roads
- Investigating complex crimes
- Digital policing and e-crime
- Criminological theory

Year 3
- Evidence-based policing
- Strategic thinking in policing
- The Police Constable role
- Investigating organised crime
- Policing and society
- Youth crime issues
POLITICS, PHILOSOPHY AND RELIGION

Be Extraordinary at Bangor
**POLITICS**

**BA (Hons)**

What is this course about?
If you're interested in the interaction between politics and people, and have a passion for social justice, then this is the course for you. You will study the complex relationship between politics and society. You will analyse how political ideas and decisions shape our daily lives and impact on our social and cultural experiences and identities. You will also study how those same ideas and systems are influenced by some of the most significant issues that face the world today, including race, gender, the environment, the media, and poverty.

Why choose Bangor?
- Join a friendly, supportive, and stimulating learning community.
- The world of politics does not stand still – this fast-moving landscape is reflected in teaching informed by cutting-edge research.
- You will develop key skills and knowledge – learn to think critically and 'politically'.
- Explore a range of issues, such as: the influence and management of the media; political power, legitimacy, and the state; social movements, civil society, and the public sphere.

Indicative Topics

**Year 1**
- Modern politics in action
- Essential skills for academic success
- Power, freedom and the State
- Understanding society
- Introduction to modern history

**Years 2 and 3**
- Modern ideas and movements
- Social and political research
- Race, democracy and political ideology
- Social issues
- Theorising society and politics
- Identity and diversity
- The radical 1960s in Europe
- Political philosophy
- Work placement
- Research project

---

**PHILOSOPHY, ETHICS AND RELIGION**

**BA (Hons)**

What is this course about?
Studying Philosophy, Ethics and Religion offers you the opportunity to engage with the fundamental questions of life: What does it mean to be human? How should we resolve moral dilemmas? Is it possible to prove that God exists? Our course draws together modules that explore ethics, analytical and continental philosophy, and Eastern and Western religions. If you have an enquiring mind and want to cultivate new skills – this may be the course for you.

Why choose Bangor?
- 100% Overall Student Satisfaction (NSS 2020).
- You will have the opportunity to specialise your degree in philosophy, ethics or religion.
- You will benefit from staff expertise and their commitment to teaching, student care and welfare.
- Our staff are research active and incorporate current research into their teaching.

Indicative Topics

**Year 1**
- Introduction to ethics
- Death of God
- Existentialism
- Themes in Eastern religions and philosophy
- Introduction to Judaism and Christianity

**Years 2 and 3**
- Applied ethics
- The mad, the holy, and the demonic
- Sociology of religion
- Sex and society
- Ancient philosophy
- Early modern philosophy
- Tales of might and morality
- Buddhism in the modern world
- Fundamentalism
- The problem of evil
- Political philosophy

What is this course about?
The past can be exploited; it can be corrupted; it can be used to create myths, legends and to forge identities. This course is ideally suited to anyone interested in learning about the past and how it is represented (or even misrepresented) by the heritage industry. You will explore historical and archaeological evidence and differing interpretations of it. Practical and transferable skills gained will prepare you for a variety of career options.

Why choose Bangor?
• The local area is steeped in history (including UNESCO World Heritage Sites) and provides a resource for fieldwork as well as a superb location for study.
• Excellent opportunities to gain experience of working with local and national archaeological and heritage organisations.
• We have experts in all fields of history from the Middle Ages to the twentieth century, who work principally on Britain, Europe and the United States of America.

Indicative Topics
Year 1
- Introduction to history and heritage
- British prehistory
- Historic archaeology
- Archaeological principles and techniques
Year 2
- Guardians of heritage
- Contemporary archaeology
- Debating history
- The age of the castle
- The Tudors
- Work placement
Year 3
- Heritage and identity
- Roman frontiers
- Norman Sicily
- Nazi Germany 1933-1945

What is this course about? History is an inspirational, dynamic, relevant subject. The breadth of topics offered in our degree span the Neolithic period through to the contemporary world. You will be able to choose from topics covering aspects of the history and archaeology of Wales, Britain, Europe and the wider world. Through study of both documentary sources and material culture you will explore political, social and cultural aspects of the past and develop practical and transferable skills.

Why choose Bangor?• A flexible degree structure that encourages you to explore and develop your interests. • 100% student satisfaction, History BA (NSS 2020). • A local area steeped in history (including UNESCO World Heritage Sites) and provides a resource for fieldwork and a superb location for study. • We have experts in all fields of history from the Middle Ages to the 20th century, working principally on Britain, Europe and the USA.

Why choose Bangor? • The local area is steeped in history (including UNESCO World Heritage Sites) and provides a resource for fieldwork as well as a superb location for study. • Practical experience with fieldtrips and fieldwork offered as part of your degree. • Opportunities to gain experience working with local and national archaeological and heritage organisations and enhance employability prospects. • Recent graduates have gone on to work in commercial archaeology, museum curation, and the heritage sector.

Why choose Bangor? • Study in an inspiring area steeped in history and rich in arts and culture. • A flexible course structure – lets you explore and develop your own interests. • Excellent library holdings and on-site University archives and special collections. • Our close links with the University’s Pontio Arts and Innovation Centre, local theatres, museums, poetry groups and vibrant student societies will give you plenty of opportunities to get involved in arts and culture.

Why choose Bangor? • Reading, thinking, writing • The six lives of Henry VIII • Modern politics in action • The literature of laughter • Children’s writing • The Gothic in literature and film

Why choose Bangor? • An excellent teaching reputation: combining new technologies, innovative teaching and design and small-group teaching. • With historic sites on the doorstep, the local area is a fantastic teaching resource and superb location for study. • A dynamic music-making community: choirs, orchestras, bands, student ensembles. • Music performance scholarships available for the most promising instrumentalists and vocalists. • Dedicated music facilities, professional concert halls, soundproofed practice suite, four state-of-the-art electroacoustic studios.
MEDIEVAL AND EARLY MODERN HISTORY
BA (Hons)

What is this course about?
This course gives you the opportunity to study the pre-modern world, c.500–1750 (especially Europe, Britain and Wales) in detail. You will develop an understanding of the foundations of the contemporary west, whilst developing a range of skills that includes efficient information gathering, critical analysis of evidence and the ability to present your ideas clearly. The degree culminates in the chance to design and write your own research project in the final year.

Why choose Bangor?
• Teaching rooted in research.
• A dedication to small-group teaching and one-to-one support.
• Fantastic opportunities for local field trips to internationally renowned historic sites.
• Excellent library holdings, digital resources and University Archives.
• Concentration on the pre-modern period will enable an in-depth grasp of period-specific approaches, themes and concepts.

Indicative Topics
Year 1
- The six lives of Henry VIII
- Europe in the high middle ages
- Wales: princes to Tudors
- Essential skills for academic success

Years 2 and 3
- Debating history
- Under the hammer: Edward I
- The age of the castle
- The Tudors
- Norman Sicily
- The civil wars: England and Wales 1588-1662
- Reformation and counter-reformation
- Conquest and culture
- The Lion of Justice
- Work placement

MODERN AND CONTEMPORARY HISTORY
BA (Hons)

What is this course about?
This course provides the opportunity to study British, European and American history from the modern period to the present day. You will learn how to examine contemporary issues in their historical context, exploring the development of modern society and politics. You will delve deeper into more specialised topics, such as Nazi Germany or the Cold War. The essential skills of analysis, argument and communication acquired are highly valued by employers.

Why choose Bangor?
• Teaching led by an international team of lecturers who are experts in their fields.
• Fantastic opportunities for local field trips to renowned historic sites, including the house where David Lloyd George was born and the great country houses, Plas Newydd and Penrhyn Castle.
• A dedication to small-group teaching and one-to-one support.
• A focus on modern and contemporary history will enable an in-depth grasp of period-specific approaches, themes and concepts.

Indicative Topics
Year 1
- Essential skills for academic success
- Modern politics in action
- Wales since 1789
- Power, freedom and the State

Years 2 and 3
- Debating history
- Britain in the jazz age
- Nazi Germany, 1933–1945
- Hot wars of the Cold War
- Modern ideas and movements
- Raving in the 1990s
- USA, 1945-2001
- Europe, 1945-1992
- Graffiti: marking time and space
- Country house life
- The radical 1960s

ENGLISH LANGUAGE

BA (Hons)

What is this course about?

English is an important language socially, politically and economically. A global language with c.1.5 billion speakers worldwide, English is the best-described language in the world. On this course you will explore how English works, why and how it is used, and where it has come from. You will learn about subjects such as: the grammatical structure (e.g. word order, sounds, meaning); the history of English; dialects and social variation; social, educational and cultural aspects; global English, and more.

Why choose Bangor?

- Teaching staff are active researchers in a range of theoretical and applied areas relating to the English language – many have international reputations in the field.
- You will gain a sound and scientific insight into the structure and use of language, its history and the relationship between language and society.
- Our facilities include an extensive collection of books on linguistics and English language, recording and experimental equipment, and a language laboratory.

Indicative Topics

Year 1
- Introduction to English grammar
- Phonetics and phonology
- Language, literature and culture
- Language and society

Year 2
- Morphosyntax
- Sounds and sound systems
- Functions of discourse
- Meaning, mind and truth
- Bilingualism

Year 3
- Language contact and bilinguals
- Child language acquisition
- Speech science
- Language and communication
- Psycholinguistics
- Historical linguistics

## ENGLISH LANGUAGE AND ENGLISH LITERATURE

### BA (Hons)

**What is this course about?**

This course gives you the opportunity to study two important aspects of the best-described language in the world. You will examine how English works, why and how it is used, and where it has come from. You will also develop critical techniques, skills in reading literature and study texts and authors from a wide range of English, British and American literature. Literary works will be studied in different ways – looking at social or political contexts, or taking a more linguistic or stylistic approach.

### Why choose Bangor?

- Teaching staff are active researchers in areas relating to the English language and English literature – many have international reputations in the field.
- You will gain a sound and scientific insight into the structure and use of language as well as the critical analysis of a wide range of literature.
- Excellent facilities include: an extensive collection of books on linguistics and English language, recording and experimental equipment, and a language laboratory.

## ENGLISH LANGUAGE WITH CREATIVE WRITING

### BA (Hons)

**What is this course about?**

The combination of distinct but related subjects in this course provides a fascinating opportunity to study the English language with creative writing. You will explore and examine how English works, why and how it is used where it has come from while also developing skills in writing in a variety of forms. You will study the structure of language and where it has come from in society and explore creative writing in small groups or workshops led by research experts and published writers.

### Why choose Bangor?

- Teaching staff are active researchers in areas relating to the English language and English literature – many have international reputations in the field.
- You will gain a sound and scientific insight into the structure and use of language as well as the critical analysis of a wide range of literature.
- Excellent facilities include: an extensive collection of books on linguistics and English language, recording and experimental equipment, and a language laboratory.

## ENGLISH LANGUAGE FOR SPEECH AND LANGUAGE THERAPY

### BA (Hons)

**What is this course about?**

This degree has been developed specifically for those aiming for a future career in Speech and Language Therapy (SLT). It builds a strong foundation for further postgraduate study and subsequent certification as a speech language therapist. You will become proficient in understanding how English works, why and how it is used, and where it has come from. You will also gain extensive knowledge of English linguistics and the areas of general linguistic theory that underpin study in this field.

### Why choose Bangor?

- Teaching staff are active researchers in areas relating to the English language and English literature – many have international reputations in the field.
- Facilities include: an extensive collection of books on linguistics and English language, recording and experimental equipment, a language laboratory, dedicated equipment, a language laboratory, dedicated equipment, a language laboratory, dedicated equipment.

---

*Note: The asterisk (*) denotes that this course is specifically designed for students aiming to pursue a career in Speech and Language Therapy.*
## LINGUISTICS (Hons)

### BA (Hons)

**What is this course about?**
We tend to take our ability to produce and understand speech for granted until we try to learn another language. We learn a first language, or witness the effects of language handicap. Linguistics is the study of language structure, how languages are acquired, how they are used, and how they may be impaired. Because speech is so central to our existence it is a fascinating and rewarding subject to study.

**Why choose Bangor?**
- Teaching staff are active researchers – many with international reputations in the field.
- Excellent facilities, including an extensive book collection, recording and experimental equipment, and language laboratory.
- This course is an ideal foundation for many careers, e.g. teaching and caring professions, language technologies, speech and language therapy, editing and proofreading, and roles in communications.

## LINGUISTICS AND MODERN LANGUAGES* (Hons)

### BA (Hons)

**What is this course about?**
Studying linguistics enables you to learn about, understand and interpret many aspects of human language. You will study the structure of language, including sounds (phonetics, phonology), words (morphology), sentences (syntax), and meaning (semantics). You will also study the acquisition and use of language. On this joint course you will also develop advanced skills in a modern language, and specialised insights into the culture, society and history that go with it.

**Why choose Bangor?**
- Teaching staff are active researchers in a range of theoretical and applied areas relating to linguistics and modern languages.
- You will gain a sound and scientific insight into the structure and use of language.
- Learning facilities include: an extensive collection of books on linguistics and modern languages, and experimental equipment, and a language laboratory.
- In your third year you will have the opportunity to broaden your horizons during a year abroad.

### Indicative Topics

## LINGUISTICS AND PSYCHOLOGY (Hons)

### BA (Hons)

**What is this course about?**
On this joint degree you will learn about behaviour from infancy to old age, and deal with the biological, social and individual factors that affect human psychology and language use. Studying Linguistics will enable you to learn about, understand and interpret many aspects of human language. You will study the science behind language, including sounds (phonetics, phonology), words (morphology), sentences (syntax), and meaning (semantics).

**Why choose Bangor?**
- Key researchers with specialisms in areas such as bilingualism, child language acquisition and language disorders.
- You will gain a sound and scientific insight into the structure and use of language and human behaviour.
- Our facilities include, an extensive collection of books on linguistics and English language, recording and experimental equipment, and a language laboratory.

## LINGUISTICS AND THE ENGLISH LANGUAGE (Hons)

### BA (Hons)

**What is this course about?**
On this course you will learn about, understand and interpret many aspects of human language. Combining these two complementary subjects enables you to explore the way in which language abilities develop, while also acquiring knowledge and capabilities in the use of English language. You will examine key issues such as how our language changes according to the context in which it is being used, and how men's and women's language use differs.

**Why choose Bangor?**
- Teaching staff are key researchers and many have international reputations in the field.
- You will gain a sound and scientific insight into the structure and use of language, its history and the relationship between language and society.
- Our facilities include an extensive collection of books on linguistics and English language, recording and experimental equipment, and a language laboratory.

CREATIVE AND PROFESSIONAL WRITING

BA (Hons)

What is this course about?
This course will enable you to develop a personal creative practice as a writer, offering imaginative approaches to many areas of writing as well as critical insights into literary and professional contexts. Alongside the techniques and forms of creative writing, such as the short story, the novel and poetry, you will study modules such as journalism, screenwriting and publishing that connect your writing skills with a range of vocational possibilities.

Why choose Bangor?
• Small group teaching and lectures, one-to-one supervision.
• Creative Writing in UK Top 10 for Graduate Prospects and Research Intensity (Complete University Guide 2021).
• Creative Writing is part of a vibrant Arts and Culture scene that includes Pontio, the University’s £40 million Arts Centre, local theatres, poetry groups and student societies.
• Former students have gone on to edit, publish and write creatively in a variety of literary fields and media contexts.

Indicative Topics
Year 1
- Introduction to prose and poetry
- The literature of laughter
- The Gothic in literature / film
- Children’s fiction

Year 2
- The novel
- Transformative writing
- Creative non-fiction
- Modern and contemporary writing
- Practical digital journalism
- Screenwriting: theory and practice

Year 3
- Detective fiction
- Dystopian fiction
- Sex, sects and scandal
- Welsh writing in English
- Early modern literature
- The Romantic Period in Britain
- Modern and contemporary writing

ENGLISH LITERATURE

BA (Hons)

What is this course about?
You will study the full range of literature from the medieval to the contemporary and develop your individual interests. In Year 1, you will gain highly employable key skills in critical analysis, alongside a grounding in major literary works and popular genres. In Years 2 and 3, there is an exciting choice of modules focused on historical periods and those focused on genres and topics (e.g. Arthurian, Fantasy, Welsh writing in English, Dystopian), and the opportunity to develop your own research project.

Why choose Bangor?
• Small group teaching and lectures and one-to-one supervision.
• Bangor is an inspiring location for literary study.
• The world-class quality of research and writing was recognised in the most recent Research Excellence Framework (REF 2014), placing us in the UK Top 10 for research intensity.
• Close links with Pontio, the University’s Arts Centre, local theatres, poetry groups and student societies – including our Bangor English Drama Society (BEDS).

Indicative Topics
Year 1
- Children’s writing
- The Gothic in literature and film
- The literature of laughter
- Landmarks in literature

Year 2 and 3
- Detective fiction
- Dystopian fiction
- Sex, sects and scandal
- Welsh writing in English
- Early modern literature
- The Romantic Period in Britain
- Modern and contemporary writing

ENGLISH LITERATURE AND CREATIVE WRITING

BA (Hons)

What is this course about?
This course develops connections between critical study of English Literature and the creative practice of writing in a variety of forms. You will learn to approach texts as both a reader and a writer, discovering synergies between these different perspectives. You will study a broad range of English literature while developing your practical skills, confidence and independent vision as a creative writer. This course offers the chance to develop skills in critical analysis and imaginative problem solving that are relevant to a range of career paths.

Why choose Bangor?
• Small group teaching and lectures and one-to-one supervision.
• Creative Writing in UK Top 10 for Graduate Prospects and Research Intensity (Complete University Guide 2021).
• Creative Writing is part of a vibrant Arts and Culture scene that includes Pontio, the University’s £40 million Arts Centre, local theatres, poetry groups and student societies.
• Former students have gone on to edit, publish and write creatively in a variety of literary fields and media contexts.

Indicative Topics
Year 1
- Introduction to poetry
- Language, literature and culture
- Introduction to phonetics and phonology

Year 2
- Meaning, mind and truth
- Creative writing – the novel
- Modern and contemporary writing
- Screenwriting: theory and practice
- Morphosyntax

Year 3
- Cross-cultural writing
- Writing and environments
- Fantastic fictions
- Experimental writing
- Psycholinguistics

ENGLISH LITERATURE AND JOURNALISM*

BA (Hons)

What is this course about?
You will study literature in a range of genres, alongside television, radio, print and digital journalism, and media practice. You will study how literature and journalism both reflect and change society in different periods and contexts. This course will equip you with a solid grounding in the principles of journalism, as well as practical and technical skills and media and journalism skills required to make you a sought-after professional in this field.

Why choose Bangor?
• Small group teaching and lectures, one-to-one supervision.
• Close links with Pontio, the University’s Arts Centre, local theatres, poetry groups and vibrant student societies – including student newspapers, Bangor English Drama Society (BEDS).
• A dedicated building with editing suites and production equipment available for students.
• We have excellent links with newspapers and the television industry. Final-year projects are often carried out in collaboration with a company.

Indicative Topics
Year 1
- Introduction to practical journalism
- Reading, thinking, writing
- Issues in media and journalism
- The literature of laughter
- The Gothic in literature / film
- Children’s fiction
- Language, literature and culture

Years 2 and 3
- Practical digital journalism
- Digital journalism and society
- Modern and contemporary writing
- The Romantic Period in Britain
- Detective fiction
- Arthur: legend and superhero
- Sex, sects and scandal
- Dystopian fiction

*Subject to validation
ENGLISH LITERATURE AND CREATIVE WRITING

What is this course about?
You will develop your individual interests in aspects of literature, drama and theatre. You will explore a wide range of practice including devising, community theatre, acting skills and solo and group performance. This work is underpinned by the critical study of literature, and drama from a range of historical periods from the medieval to the contemporary. Modules combine the creative and performative with a critical grounding in major theatre.

Why choose Bangor?
• Small group teaching and lectures and one-to-one supervision.
• You will benefit from excellent facilities and from Bangor’s close links with local and national theatre companies, including with Pontio, the University’s £40 million Arts Centre.
• Close links with vibrant student societies – including student newspapers, Film Society, and drama societies.

Indicative Topics
Year 1
- Reading, thinking, writing
- Performance for stage and screen
- The literature of laughter
- The Romantic Period in Britain
- Detectable fiction
- Jane Austen
- Shakespeare and early modern literature
- Arthur: legend and superhero
- Sex, Sects and Scandal
- Dystopian Fiction

Years 2 and 3
- Theatre and performance: the self
- The Romantic Period in Britain
- Detective fiction
- Jane Austen
- Shakespeare and early modern literature
- Arthur: legend and superhero
- Sex, Sects and Scandal
- Dystopian Fiction

Why choose Bangor?
• Music: 6th in the UK for Overall Student Satisfaction (NSS 2020).
• English: 1st in the UK for research intensity (Complete University Guide 2021).
• Flexible degree structure to tailor the course to your interests and strengths. Close links with Pontio Arts Centre, local theatres, poetry groups and student societies including the Bangor English Drama Society (BEDS).
• A dynamic music-making community: choirs, orchestras, bands, student ensembles and the Bangor University Music Society.

Indicative Topics
Year 1
- Children’s writing
- Solo performance (with individual tuition)
- Music history
- Composition and sonic art

Year 2
- Sex, sects and scandal
- Medieval women’s literature
- Solo performance and ensembles
- Options such as pop music analysis, jazz or the symphony

Year 3:
- Early modern literature
- Victorian literature
- Solo recital, dissertation or composition project
- Modules such as Beethoven string quartets, songwriting or Stockhausen

Be Extraordinary at Bangor

CYMRAEGL / WELSH
What is this course about?
This course is much more than a degree scheme. It is a cultural package that will enable you to play a professional role in the revival of Welsh and the creation of a truly bilingual Wales. It combines the study of literature and culture with linguistic studies. This course is both academically rigorous and relevant to the societal and linguistic needs of Wales. Our graduates work in areas such as the civil service, public relations, marketing, local government, broadcasting, publishing, teaching, and the translation, arts and heritage sectors.

Why choose Bangor?
• 1st in the UK for Celtic Studies (Times and Sunday Times Good University Guide 2021).
• 1st in the UK for Student Satisfaction (Complete University Guide 2021).
• 90% go on to work and/or study within 15 months after the course (Discover Uni).
• A world-renowned centre for the study of Welsh and Celtic Studies.
• Study in the unique Celtic linguistic environment of Gwynedd (north-west Wales) where Welsh remains the language of the majority.

Indicative Topics
Year 1
- Study the work of Welsh authors such as Kate Roberts and Mihangel Morgan
- Interaction between Welsh film and culture
- Welsh literature and culture
- The socio-political context of Welsh in contemporary Wales

Years 2 and 3
- History of Welsh, from its Indo-European and Celtic roots to present
- The ecological challenges of industrialisation
- Get to grips with cynghanedd
- Professional writing and translation skills
- Research project
What is this course about?
As Wales develops into a dynamic bilingual country, there has never been a more exciting time to study the most vibrant of the Celtic languages. Follow the story of Welsh from the medieval tales of the Mabinogion to the multifaceted Welsh-language culture of contemporary Wales. This four-year programme is designed for beginners and unconfident speakers. It includes an intensive language-focused Foundation Year, followed by the comprehensive Welsh three-year BA degree scheme.

Why choose Bangor?
- 1st in the UK for Celtic Studies (Times and Sunday Times Good University Guide 2021).

What is this course about?
This course is divided evenly between Welsh and Sociology. Your Welsh modules will combine the study of literature and culture with linguistic studies that encompass the history of Welsh and its practical use for work-related purposes. Sociology investigates social life and the way it shapes people’s behaviour, beliefs and identity. Its subject matter ranges from an examination of the face-to-face interactions of daily life, to large-scale social institutions, social movements and global processes.

Why choose Bangor?
• 1st in the UK for Celtic Studies (Times and Sunday Times Good University Guide 2021).
• A friendly and informal learning environment.
• Introductory year in both subjects builds your confidence, whatever your background.
• A variety of learning approaches are used to develop personal and practical skills in observation, information processing and presentation, all of which are highly valued by employers.
• Study in Gwynedd where Welsh remains the living language of the majority.

Indicative Topics
Year 1
- Welsh literature and culture
- Understanding society
- From cradle to grave
- Power, freedom and the State

Years 2 and 3
- History of Welsh
- The ecological challenges of industrialisation
- Professional writing skills in Welsh
- Theoretical perspectives in sociology
- Research methods
- Issues in social identity and diversity
- Study theorizing society and politics today

CREATIVE STUDIES

BA (Hons)

What is this course about?
This degree course combines subjects across film, media and journalism, including audio and visual production, print journalism; digital media; film theory, and cultural studies. You will develop skills and techniques to produce media material as well as essential key skills for many of the creative industries. This course will equip you with a solid grounding in the theoretical, technical and practical skills required to make you a sought-after professional in these fields.

Why choose Bangor?
- Our flexible course structure which balances subject breadth with opportunities to specialise.
- You will study in a creative atmosphere, working closely with world leading scholars and practising industry professionals and consultants.
- Our excellent facilities include a fully equipped centre with editing suites, and the latest 4K digital filmmaking equipment.
- You will gain practical experience by contributing to organising events, e.g. screenings, film festivals, performances.

Indicative Topics
- Creative practice
- Visual cultures
- Introduction to practical journalism
- Film history
- Film language

Years 2 and 3
- Film theory
- America on film
- Radio: theory and practice
- Media practice: factual
- Writing for film and television
- Understanding documentary
- Practical journalism: ethics, law, democracy
- Short film production

MUSIC

Be Extraordinary at Bangor
COURSE LISTING + PATHWAYS

MUSIC (BMUS HONS)
MUSIC (BA HONS)
MUSIC AND CREATIVE WRITING
MUSIC AND FILM STUDIES
MUSIC AND MODERN LANGUAGES
MUSIC WITH THEATRE AND PERFORMANCE
What is this course about?
Studying Music is a creative opportunity to grow as a musician and equips you with professional music skills appropriate to a wide range of careers. Guided by world-renowned composers, musicologists and researchers, you will be part of a vibrant music community. Your musical experience will extend beyond the lecture room with opportunities to join the University Symphony Orchestra, Chamber Choir and student music societies such as Jazz Band.

MUSIC
BMus (Hons)

What is this course about?
BMus follows the same pattern as our BMus, but allows the option to include studies in other subject areas if you wish. You will have the same opportunities to develop your musical understanding and creativity, but also the flexibility to pursue other academic interests and broaden your career options. You will study with our world-renowned composers, musicologists and researchers, and play a full part in our vibrant music community.

Why choose Bangor?
- 6th in the UK for Overall Student Satisfaction in Music, 1st in Wales (NSS 2020).
- A wide range of options, allowing you to shape your course to reflect your interests and strengths.
- Music Performance Scholarships are offered to the most promising instrumentalists and/or vocalists.
- A dynamic music-making community: choirs, orchestras, bands, student ensembles and more.
- Two professional concert halls, soundproofed practice suite, four state-of-the-art electroacoustic studios, Pontio Arts Centre.

MUSIC BA (Hons)

What is this course about?
BA Music follows the same pattern as our BMus, but allows the option to include studies in other subject areas if you wish. You will have the same opportunities to develop your musical understanding and creativity, but also the flexibility to pursue other academic interests and broaden your career options. You will study with our world-renowned composers, musicologists and researchers, and play a full part in our vibrant music community.

Why choose Bangor?
- 6th in the UK for Overall Student Satisfaction in Music, 1st in Wales (NSS 2020).
- A wide range of options, allowing you to shape your course to reflect your interests and strengths.
- Music Performance Scholarships are offered to the most promising instrumentalists and/or vocalists.
- A dynamic music-making community: choirs, orchestras, bands, student ensembles and more.
- Two professional concert halls, soundproofed practice suite, four state-of-the-art electroacoustic studios, Pontio Arts Centre.

MUSIC AND CREATIVE WRITING
BA (Hons)

What is this course about?
Music and Creative Writing offers a perfect combination of creative disciplines. You will study creative practice of writing in a variety of forms, and pursue music studies in performance, composition and musicology. You will approach texts as both reader and writer, and engage with music as a listener, performer and composer. Our close links with local theatres, poetry groups and vibrant student societies will give you opportunities to get involved in arts and culture, and be a part of a thriving music community.

Why choose Bangor?
- Excellent student satisfaction: Music 6th in the UK for Overall Student Satisfaction (NSS 2020).
- Creative Writing at Bangor in the UK Top 10 for Research Intensity and Graduate prospects (Complete University Guide 2019, 2020 and 2021).
- Close links with the Pontio Arts Centre, local theatres, poetry groups and student societies – including the Bangor English Drama Society (BEDS).
- A dynamic music-making community: choirs, orchestras, bands, student ensembles and the Bangor University Music Society.

MUSIC AND FILM STUDIES
BA (Hons)

What is this course about?
Music and Film have been closely linked since the invention of cinema and you will be able explore the connections between these two creative disciplines. You will be part of a thriving music community, performing or attending performances in public venues and will benefit from Bangor’s close links with the local, national and international film studies and media making communities in the USA, Australasia and Europe. As a graduate with specialisms in both Music and Film, you will be equipped for a wide range of professional careers.

Why choose Bangor?
- 6th in the UK for Overall Student Satisfaction in Music, 1st in Wales (NSS 2020).
- Top 20 in Complete University Guide 2021 (Media and Communication and Media Studies). Flexible degree structure to tailor the course to your interests and strengths.
- Fully equipped Media Centre, with film editing suites, new media suites, production studios and media/film equipment available to students.
- A dynamic music-making community: choirs, orchestras, bands, student ensembles and the Bangor University Music Society.
MUSIC AND MODERN LANGUAGES

BA (Hons)

What is this course about?
There are profound connections between language, literature, art and culture, and the combination of Music and Modern Languages allows you to study these in depth. You will use and develop your language and musical skills in an integrated way, using each to inform and enrich the other. Choose from Chinese, French, German, Italian or Spanish at beginner or advanced level. You will develop written (e.g. translation) and oral skills and will learn about cultural aspects related to the chosen language, in which you will be fully immersed during your year abroad.

Why choose Bangor?
• Top 10 in the UK for Student Satisfaction for Music and Top 15 for Modern Languages subject areas (NSS 2020).
• UK Top 20 subjects (Guardian Good University Guide 2021).
• Research-led teaching by prestigious academic staff: Modern Languages 13th, Music 25th in the UK (REF 2014).
• Flexible degree structure to tailor the course to your interests and strengths.
• A dynamic music-making community: choirs, orchestras, bands, student ensembles and more.

Indicative Topics
All languages are taught from Year 1 (beginner or advanced level) to Year 4.
Year 1
- Transnational cultures
- Solo performance
- Music history
- Composition
Year 2
- Race and immigration in France
- German or Spanish cinema
- Pop music analysis, jazz or the symphony
Year 3
- Year abroad
Year 4
- Chinese studies
- French cinema
- Performing Germany
- Representing Italian mafias
- Spain through its writers

MUSIC WITH THEATRE AND PERFORMANCE

BA (Hons)

What is this course about?
The course is a perfect blend of music and theatre with a strong emphasis on performance. You will be part of a thriving music and performance community, performing and attending music and theatrical performances at Pontic Art Centre, John Phillips Theatre and the magnificent Prichard-Jones Hall, and will benefit from our close links with local and national theatre companies, and music and theatre practitioners who regularly visit.

Why choose Bangor?
• 6th in the UK for Overall Student Satisfaction in Music, 1st in Wales (NSS 2020).
• Music and theatre making community: choirs, orchestras, bands, student ensembles, drama and musical theatre societies, opportunities to perform and collaborate with local and national practitioners.
• Two professional concert halls, soundproofed practice suite, four state-of-the-art electroacoustic studios, two professional theatre studios and large proscenium arch stage.
• Strong links with professional companies and practitioners.

Indicative Topics
Year 1
- Solo vocal and/or instrumental performance
- Composition and sonic art
- Theatre making
- Performing for stage and screen
Years 2 and 3
- Solo performance and ensembles
- Pop music analysis, jazz or the symphony
- Devising and creating a one-person performance – ‘The Self’
- Contemporary theatre
- Solo recital, dissertation or composition project
- Interactive sound and music
- Beethoven string quartets, songwriting or Stockhausen
- Professional practice

</table>
Both our student villages are within walking distance of University buildings, giving you easy access to lecture halls and libraries.

The halls have Senior Wardens and a large team of student mentors and for extra peace of mind, we have Security Staff on call 24 hours a day.

As a resident in University accommodation, you can also take part in our Campus Life events programme which include kayaking, mountain walks, film nights, music events, pizza parties and life skills workshops. The perfect opportunity to take a break from study and meet new people.

What type of accommodation is available?

We have a variety of accommodation available including en-suite rooms, standard rooms (shared facilities), town houses and studio apartments.

We also have dedicated accommodation for Welsh speakers and learners, can cater for those preferring to be accommodated in single sex in halls, and have several accessible rooms available.

All accommodation is self-catered, and kitchens are shared with fellow halls’ students making them a great place to socialise.

*For full details of our Halls’ guarantee go to www.bangor.ac.uk/hallsguarantee

“Life in halls is awesome. I love how there’s a lovely mix of having your own space but at the same time, the opportunity to integrate with your hall mates through shared facilities and activities.”

Eno Igoche, from Lagos, studying at the School of Health Sciences
Hall fees include all bills for internet, heating, electricity, hot water, Campus Life membership, gym membership and basic contents insurance.

St Mary’s Student Village
St Mary’s is ideally located for Bangor city centre and the range of shops on the high street. This is a student village of 600 rooms with en-suite rooms, studio apartments and town houses. There is also a small bar, takeaway café and snack bar next to the student lounge, a shop, launderette, learning lounge, bookable social kitchens and study rooms, fitness room, outdoor recreation and games area, mini cinema and a performance and music space.

Ffriddoedd Student Village
The largest accommodation site is in Upper Bangor, about 10 minutes’ walk from the heart of campus, the Science buildings and the city centre. The Ffriddoedd student village has a shop, launderettes and student lounges. The rooms at this village are predominantly en-suite. Bar Uno, the student bar, serves meals and drinks through the day and Canolfan Brailsford, the University’s sports and recreation centre, is also on this site.

www.bangor.ac.uk/halls
www.bangor.ac.uk/hallsguarantee

“Hallo living in halls! You get to know people you wouldn’t usually meet, and it also gives you independence.”
Caitlin Riley, from South Yorkshire, studying English Literature and Media

“In halls, students have the support of the Mentor Team if they are struggling living away from home or with any other issues they might have.”
Anneka Dinham, from Wolverhampton, studying Creative Studies
You will become a part of a truly international community, allowing you to make the most out of your time studying with us.

Making you feel at home
From collecting you from the airport when you arrive, to our International Student Ambassadors who run events for you throughout your study, we aim to make you feel right at home. We also provide a guarantee of a place in our student accommodation for all first-year students who apply by the published deadline, so you can truly make Bangor your home from home.

Supporting you
We pride ourselves on supporting our students every step of the way and have a range of support in place. These include our International Student Support Office, who run visa workshops and can provide a wide range of advice on living and studying in the UK, and our Peer Guides and Student Ambassadors who are current students trained to help support you throughout your study. There are also numerous international societies to get involved with, run by our Students’ Union. Getting involved will help you build the support network you need to thrive.

Scholarships and Finance
We have a range of scholarships available to our self-funded international students and Bangor is considered as one of the most economical places to study in the UK.

Pre-sessional English Courses
If you do not have the required English language level for undergraduate study you can enrol on a pre-sessional course at Bangor. The length of course will depend on the IELTS (or equivalent) grade that you currently have.

For more information about any of the areas above and the exciting opportunities available to you as an international student at Bangor please visit our web pages:
www.bangor.ac.uk/international

At Bangor we are proud to have students from over 100 countries worldwide that make up over 20% of our total student population.
STUDENT SUPPORT

HERE FOR YOU

At Bangor we place a high priority on caring for and supporting our students. From the moment you arrive you’ll be given as much help and support as you need.

From managing your budget, to mental health advice, there is a team of staff dedicated to making sure you thrive.

Student Support Services include:
- Student Counselling Service
- Mental Health Advice
- Partner GP Surgery
- International Student Welfare
- Chaplaincy Team
- Disability Services
- Study Support

There is also a dedicated Study Skills Centre to provide help with the transition to University and on-going support with your academic studies.

The centre provides a range of individual and group-based learning opportunities to help to enhance your assignment writing skills, numeracy and statistical evaluation and research skills.

www.bangor.ac.uk/studentservices

BURSARIES AND SCHOLARSHIPS

AWARDS

At Bangor we have a range of Bursaries and Scholarships designed to help students to support themselves financially through their study.

There are a number of awards available which have eligibility criteria which include students from financially disadvantaged backgrounds, academic/sporting excellence and those studying through the medium of Welsh.

For more information on the Bursaries and Scholarships that are available and how to apply please visit:

www.bangor.ac.uk/scholarships
HOW TO APPLY

ENABLE THE EXTRAORDINARY

For all full-time higher education courses at universities in the UK, you should apply online at www.ucas.com.

There are full instructions online to make it as easy as possible for you to fill in your online application.

If you are applying from outside the UK you can apply either through UCAS (as above) or through our direct application service which can be found at www.bangor.ac.uk/international.

Once you have applied we will consider your application and if you receive an offer to study with us, we will keep you up to date with opportunities for you to find out more about your course and what to expect when you join us. This will include an invitation to attend one of our Applicant Days which take place between February and April.

If you are unable to attend these events there are lots of other opportunities to come and visit Bangor including private visits.
ENTRY REQUIREMENTS

The entry requirements in the table below are indicative. Please see the website for the most up-to-date information. The course pages on our website will list any subject-specific requirements for IB, BTEC, City & Guilds, Access and Cambridge Technical Diplomas, as well as any exclusions. We also welcome applications from mature applicants. Please also note: International qualifications are accepted, subject to minimum English language requirements (see www.bangor.ac.uk/intreqs).

importantly, information

Bangor University makes all reasonable efforts to ensure that the information in this prospectus is correct at the time of printing - February 2021.

This edition of the University’s undergraduate prospectus describes the facilities and courses which the University intends to offer during the academic year commencing autumn 2022. The prospectus and web pages are prepared in advance of the academic year to which they relate and every effort has been made to ensure that the information contained in this prospectus is helpful, fair and accurate at the time of printing. However, this information is subject to change over time.

The University makes all reasonable efforts to provide the courses, tuition and learning support, research opportunities and other services and facilities with reasonable care and skill and in the way described in this prospectus. However, the University cannot guarantee the provision of any course or facility. Some circumstances, such as staff changes, resource limitations and other factors over which the University has no control, such as industrial action or a change in the law or the level of demand for a particular programme or module (please note that this list is non-exhaustive), may result in the University having to withdraw or change aspects of the programmes, modules and/or student services and/or facilities detailed in the prospectus. This could include, but not necessarily be limited to, programme/module content, staffing, the location where the programme/module is taught or the manner of teaching delivery, and the facilities provided to deliver or support the programme.

Where circumstances demand an unavoidable change or where it is necessary for the University to discontinue a programme of study, the University will take all reasonable steps to minimise the effect and all proposed changes will be notified to potential applicants who have registered an interest in the relevant programme at the earliest possible opportunity as well as being reflected on the University’s website (www.bangor.ac.uk). All students are admitted to the University on the basis that the information they provide on their application form is complete and correct.

In addition, any changes between the prospectus and the proposed course and services will be notified to applicants at the time of making an offer. Prospective applicants are encouraged to check our website for the most up-to-date information.

The willingness of the University to consider an application is no guarantee of acceptance. Students are admitted to the University on the basis that the information they provide on their application form is complete and correct.

All prices quoted in this prospectus may be subject to change and you will be notified of any such change when any offer of a place is made to you by the University.

Should you become a student of the University, this notice shall be a term of any contract between you and the University. Any offer of a place at the University shall be subject to the student enrolment conditions and the University’s rules and regulations as amended from time to time.

A copy of the University’s current terms and conditions can be found online at www.bangor.ac.uk/terms-and-conditions or obtained in writing from the Head of Governance and Compliance, Bangor University, Bangor, Gwynedd, LL57 2DD.
