

Sandesh Awade,

India (MBA International Marketing)

“ I am very confident that my degree from Bangor University will help me develop my future career, I have no doubts about this. Studying at Bangor University has set me up well for the future, this is due to the university's high teaching quality and the support I have been given throughout my time here.

The three best things about being a student at Bangor are, firstly, it is a good place to study and there is a supportive learning environment throughout the university. Secondly the university has an international feel about it, I met many different people from all over the world during my time here and this was an aspect I enjoyed. Thirdly and most importantly, the outstanding quality of the teaching at Bangor University. ”
