

How much Student Fees does my University receive ?

We received £90,500,000 in tuition fees in 2023/24 accounting for 53% of our University's income.

Our remaining income comes from Funding Body grants for specific areas of spending, funding sources to pay our Research Costs, Halls and Catering receipts as well as other income from areas such as non-credit courses, Pontio, Academi, Tir Na Nog nursery, the Management Centre, Menai Science Park, Canolfan Brailsford and other sources.

What is this spent on ?

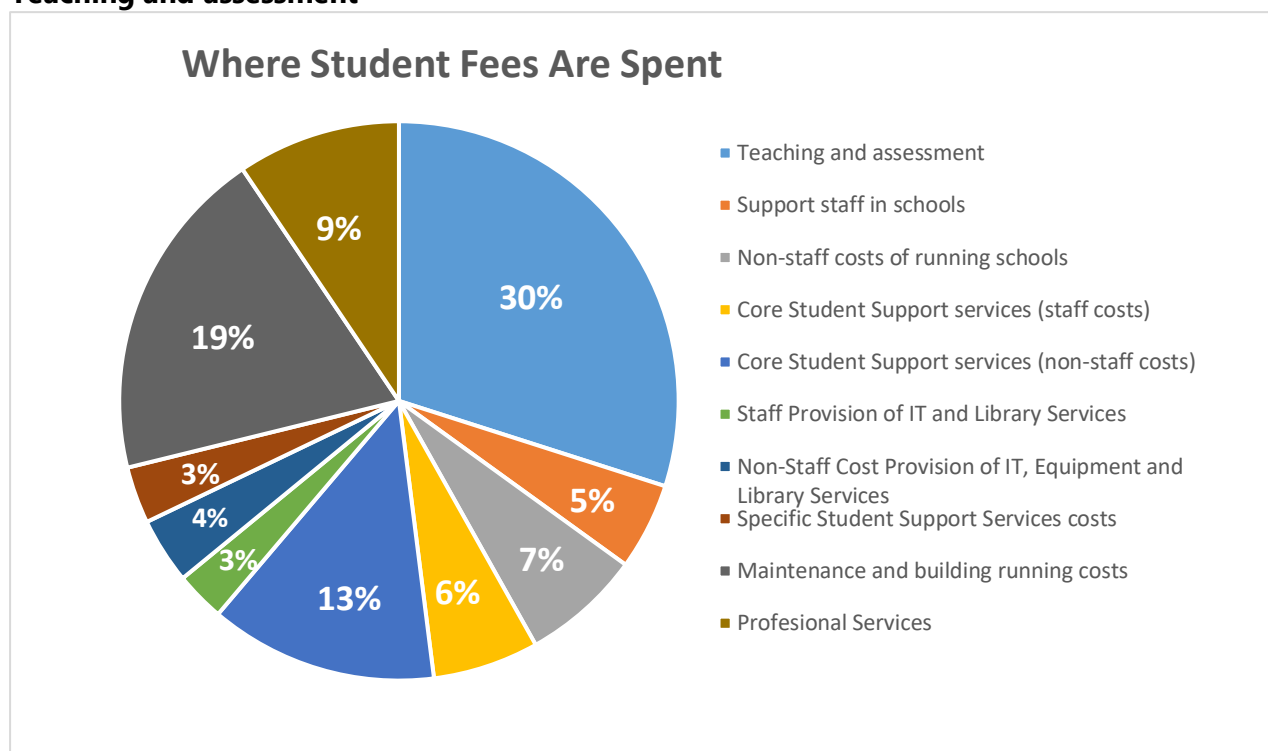

This chart shows all our expenditure, including costs which are non-tuition fee funded such as Research, Service Rendered e.g. consulting work and Halls. To help show where tuition fees are spent we've provided further analysis below.

What are my fees spent on ?

We spend the income from your tuition fees to best deliver your education and support all our students' aspirations and future prospects. To do this tuition fees are mostly spent on Academic teaching and support as well as spending on IT, Library and Buildings to facilitate your studies.

Teaching and assessment

Staff teaching and contact time, timetabling, providing online resources, exam set up, personal tutor time

Support staff in schools

Administrative and technical staff working in University Schools to support teaching delivery

Non-staff costs of running schools

Equipment and consumables to support teaching, academic staff training and travel and student recruitment costs

Student Support services (staff costs)

Student support and administration staff costs

Student Support services (non-staff costs)

Student support and administration staff costs

Staff Provision of IT and Library Services

Staff costs of running IT and Library Services

Non-Staff Cost Provision of IT, Equipment and Library Services

Non-staff costs of IT equipment, shared computers, wifi, network costs, Library books & journals
