### What the Disability Service can do for you:

- Offer personal and academic support and guidance. We can advise on strategies to make studying and everyday tasks more manageable.
- Provide Mentors and Notetakers.
- Liaise on your behalf, if necessary, with members of staff in your department or the Hall Wardens Team.
- Keep in touch through meetings, newsletters, e-mail and phone.

### Disabled Students Allowances (DSAs)

Where eligible, we can help students apply for DSA funding. This can be a lengthy process and we advise you to contact us as soon as possible to ensure timely arrangements.

### Support Workers

A Mentor can assist you to settle into university and help you with strategies to organise your time, plan your work and meet the demands of student life.

A notetaker can take main points in lectures and prompt you to stay on track.

We can also arrange for additional support on fieldtrips or in laboratories and the libraries.

### Equipment

We have helped students successfully apply for DSA funding and arranged for the purchase of equipment such as a computer with mind-mapping software as well as internet access.

### Examinations

Reasonable arrangements may be made for examinations, for example; the provision of a reader, use of a computer, extra time or rest breaks.

### Personal Learning Support Plans

We can liaise with your department on reducing the barriers you may be faced with when studying. Personal Learning Support Plans are drawn up for individual students setting out arrangements and strategies that are required.

These are just a few examples of how we can help. The main thing is to get in touch so we can discuss and identify **your** requirements.

**We offer a friendly, professional  
service. Why not contact us?**
