### What the Disability Service can do for you:

- Offer personal and academic support and guidance. We can advise on strategies to make studying and everyday tasks more manageable.
- Arrange for you to have help to become familiar with new environments.
- Provide Notetakers and Practical Assistants.
- Liaise on your behalf, if necessary, with members of staff in your department.
- Arrange for you to receive copies of lecture notes/slides before lectures.
- Assist you claim for help with taxi fares.
- Arrange for extended library loans and book collection and help source text in alternative formats.
- Keep in touch through meetings, newsletters, e-mail and phone.
- Arrange for Personal Emergency Escape Plans.

### Disabled Students Allowances (DSAs)

Where eligible, we can help students apply for DSA funding. This can be a lengthy process and we advise you to contact us as soon as possible to ensure timely arrangements.

### Support Workers

Through DSA funding, we can provide a notetaker who can take main points in lectures and ensure you capture any visual information. You may feel that practical assistance in the laboratory and library and/or on fieldtrips would be of help as well.

### Equipment

We have helped students successfully apply for DSA funding and arranged for the purchase of equipment such as a computer with screen magnification, screen reader, video magnifiers. It may be possible to download lecture notes and practical reports in a large font, or in braille prior to lessons. A digital voice recording of lectures may supplement notes and help capture the information more effectively.

### Examinations

Reasonable adjustments may be made for examinations for example: the provision of a reader or scribe, and extra time.

### Personal Learning Support Plans

We can liaise with your department on reducing the barriers you may be faced with when studying. Personal Learning Support Plans are drawn up for individual students setting out arrangements and strategies that are required.

These are just a few examples of how we can help. The main thing is to get in touch so we can discuss and identify **your** requirements.
