What the Disability Service can do for you:

- Offer personal and academic support and guidance. We can advise on strategies to make studying and everyday tasks more manageable.
- Arrange for Notetakers and BSL interpreters.
- Liaise on your behalf, if necessary, with members of staff in your department.
- Arrange for you to receive copies of lecture notes/slides before lectures and practicals.
- Help you apply for internet access in Halls.
- Keep in touch through meetings, newsletters, e-mail, text messaging and phone.

Disabled Students Allowances (DSAs)

Where eligible, we can help students apply for DSA funding. This can be a lengthy process and we advise you to contact us as soon as possible to ensure timely arrangements.

Support Workers

We can arrange notetaking provision, and can liaise with our local deaf association to provide BSL interpreters.

Equipment

Through DSA funding, we can arrange for the purchase of equipment such as digital recorders and radio aids. We also have a small loan stock of equipment for students.

A number of rooms at different sites are equipped with visual alarm systems and vibrating pagers. Loop systems are installed in many key teaching rooms.

Examinations

Reasonable adjustments may be made for examinations, for example, the provision of an interpreter, extra time or rest breaks.

Personal Learning Support Plans

We can liaise with your department on reducing the barriers you may be faced with when studying. Personal Learning Support Plans are drawn up for individual students setting out arrangements and strategies that are required.

These are just a few examples of how we can help. The main thing is to get in touch so we can discuss and identify **your** requirements.

**We offer a friendly, professional
service. Why not call us?**
